

Please mail this to us rather than fax, as images lose size via facsimile.

Name:	16"	HEEL
Address:		
Phone No:	14"	
	12"	
Instructions **VERYIMPORTANT** To get a proper measurement, it is advisable to have someone other than yourself take the measurements. With your socks on, stand with right foot FLAT down on a sheet of paper with equal weight distributed evenly on both feet, as you would normally stand. Take a PENCIL and hold it perpendicular to the ground and make a tracing all around your foot.	8" = 6" =	INSTEP BALL
Next, take a tape measure and measure around the critical points illustrated on the diagram at right and pencil in the measurements in the space provided.		Ī
BALL - Around the ball and behind the	<u>LEFT</u>	<u>RIGHT</u>
little toe, where the foot is broadest. <u>INSTEP</u> - Across high bone on foot as shown. <u>HEEL</u> - Around heel, just slightly BELOW where your foot bends.	<u>HEEL</u>	
Unless both feet are the same, we recommend that the procedure is followed for	<u>BALL</u>	
both feet.	Please Fill in Below	
MEASUREMENTS ARE KEPT IN OUR MASTER FILE FOR FUTURE ORDERS.	Size of Shoe Normally Worn	
	Size of Boot Usually Worn	
	Please Circle One Instep:	
	X-Large, Large, Medium, Small, Very Small
