

Near® Zigbee PIR Motion Sensor

Product and Installation Manual

Product Features

1. 360° rotatable design for quick and easy installation
2. Low battery indication function
3. Low power consumption microprocessor, long standby.
4. Digital temperature compensation technology
5. Send status report to gateway periodically
6. Pyroelectric infrared sensing technology, sensitive to the identification of heat changes, intelligent sensing of human or animal movements.

Preparation for use

1. In App Store or Google Play, search for "Near" or scan the QR code on the package/manual to download and install the Near® App;

**360°
Adjustability**

**Low Power
Consumption**

**Motion
Detection**

Low Battery Alert

Product Specifications

Near® Zigbee PIR Motion Sensor

Power Supply: DC3V (CR123A) Battery

Material: Fireproof PC + Fireproof ABS

Working Temp: -10°C ~ +55°C

Zigbee 3.0

Detection Distance: ≥90°

Dimension: ø48 x H53.2mm

Mounting: 3M Sticker, Magnetic suction base

Packing List

- 1x Near® Zigbee PIR motion sensor
- 1x 3M Tape
- 1x Suction base
- 1x User Manual
