QUALITY IN THE NATURAL RESPECT

100% Demountable product
100% Recyclable material
100% Made in Italy

TECHNOPOLYMER

Gaber production employs exclusively high-tech thermoplastic materials, which are 100% recyclable. Gaber produces plastic injected materials without added chemicals. These materials are purchased within the European Union, so Gaber is exempted from registration with ECHA agency (European Agency for Chemicals Substances), in the complete respect of "Reach Regulation".

METAL

Gaber metal structures, in the full respect of our Natural Environment, are available with "trivalent" chroming and painted finishes. Prime-quality special Epoxy powder coating used on Gaber frames enhance color stability from batch to batch and over time, increasing its corrosion-resistance and achieving excellent resistance to atmospheric agents.

CARTON BOXES

Corrugated paperboard carton boxes, printed with environmentally friendly inks, are made of 90% recycled and recyclable materials. Packaging is sized in order to optimize storage and transport requirements, both helping the environment and saving on transport costs.

In all components, parts or materials used by Gaber to make its own products, be they plastic or metal, there are no dangerous substances within the certified limits of the following test methods reports:

COSMOB TECHNOLOGICAL CENTER

FULLER COLLECTION

Designed by Marc Sadler, the collection stands out by dint of its unusual framer design, a continuous game of empty and full spaces that interwine to create an exciting three-dimensional effect.
