## QUALITY IN THE NATURAL RESPECT

100% Demountable product  
100% Recyclable material  
100% Made in Italy

### TABLE TOPS

No specific maintenance other than normal cleaning is required for Compactop and Laminated tops. The tops can easily be cleaned and disinfected with hot water, steam and any common non-abrasive household detergents and disinfectants, as long as these are not highly alkaline. Just a couple of precautions are necessary: avoid using strong acids and bases and avoid wiping with highly abrasive substances or equipment.

### TECHNOPOLYMER

Gaber production employs exclusively high-tech thermoplastic materials, which are 100% recyclable. Gaber produces plastic injected materials without added chemicals. These materials are purchased within the European Union, so Gaber is exempted from registration with ECHA agency (European Agency for Chemicals Substances), in the complete respect of "Reach Regulation".

### METAL

Gaber metal structures, in the full respect of our Natural Environment, are available with "trivalent" chroming and painted finishes. Prime-quality special Epoxy powder coating used on Gaber frames enhance color stability from batch to batch and over time, increasing its corrosion-resistance and achieving excellent resistance to atmospheric agents.

### CARTON BOXES

Corrugated paperboard carton boxes, printed with environmentally friendly inks, are made of 90% recycled and recyclable materials. Packaging is sized in order to optimize storage and transport requirements, both helping the environment and saving on transport costs.
