L-Keys for TORX® Screws

- L-keys for recessed TORX® screws
- With holding function (HF) on the long arm to securely hold the screw on the tool
- With Take it easy tool finder: colour coding by size
- BlackLaser for high corrosion protection and long service life
- Wear-resistant clip material for enhanced durability

High quality L-key set for recessed TORX® screws. Holding function for TORX® screws made according to Acument Intellectual Properties specifications on long arm. Featuring an extra-long arm. L-keys with thermoplastic sleeve out of easy-to-grip circular material. The sleeve ensures that work is pleasant and easy on the fingers even at low temperatures. "Take it easy" Tool Finder with colour coding according to size. The BlackLaser surface treatment provides outstanding surface protection, even against corrosion, and a long service life. The tools are quickly to hand thanks to the laser-engraved and thereby wear-resistant size markings on the L-keys. Come in a practical clip fastener out of wear-resistant material, enabling secure storage of the L-keys as well as simple removal.

L-Keys for TORX® Screws

## **TORX® HF profile**

In tight assembly or disassembly situations, for example in engine compartments, it is not possible to securely hold the screw with the hand on the screwdriver, and the screw subsequently often gets lost. Lengthy searches or the loss of the screw (with the associated danger that could bring about) are the consequence. The HF tools developed by Wera are ideal because they feature an optimised geometry of the original TORX® profile. The wedging forces from the surface resulting pressure between the drive tip and the screw profile mean that the screw is securely held on the tool!

## Secure hold and easy removal

The wear-resistant clip material ensures that the L-keys are securely held yet are easy to remove.

L-keys with a thermoplastic sleeve

Size identification

## Take it easy tool finder system

L-keys with a thermoplastic sleeve are manufactured out of easy-togrip, circular material. The sleeve ensures that work is safe and comfortable even at low temperatures. High corrosion protection features thanks to the special BlackLaser surface treatment. Colour coding and large stamp to enable the desired L-key to be easily located.

The size of each L-keys has been engraved by a laser. In addition Take it easy L-keys have a colour coding according to sizes - for simple and rapid accessing of the required tool. Making it easy to find the right tool.

Take it easy tool finder system with profile and size colour-coding for quick and easy tool selection. Colour-coded system for hexagon drive screws (L-Keys, Zyklop bit sockets), external hex drive screws and nuts (Joker wrenches, Zyklop sockets and Zyklop bit sockets with holding function), and TORX® drive screws (L-Keys, Zyklop bit sockets).
