

810/1 Bitholding screwdriver with retaining ring, 1/4" x 120 mm

Bitholding Screwdrivers and Adaptors

EAN:	4013288012258	Size:	232x40x40 mm
Part number:	05051005001	Weight:	133 g
Article number:	810/1 Vario	Country of origin:	CZ
		Customs tariff number:	84661038

- Bit holder with retaining ring for bits with 1/4" hexagon drive
- Multi-component Kraftform handle for fast and ergonomic screwdriving
- Hexagonal anti-roll feature against rolling away
- Hexagonal blade, chrome-plated
- Stainless sleeve with retaining ring for secure fit of the bit

Bit holder with Kraftform Plus handle for pleasant, ergonomic working that prevents blisters and calluses. Hard gripping zones for high working speeds whereas soft zones ensure high torque transfer. The integrated retaining ring ensures an optimum fit of the tool in the holder. Suitable for bits with 1/4" hexagon head drive as per DIN ISO 1173-C 6.3 and Wera connecting series 1.

Bitholding Screwdrivers and Adaptors

Universal holder with retaining ring

Proven holder design, optimal fitting of the tool in the holder. Particularly robust for series applications.

Kraftform

The basic idea for the prototype of the Kraftform handle - that the hand should dictate the design - has, right through to today, proved to be correct. In cooperation with the internationally recognised Fraunhofer IAO Institute, Wera developed a screwdriver handle designed to match the shape of the human hand as long ago as the 1960s. After a long development phase, the Wera Kraftform handle was launched to the market in 1968. It has been optimised through the years with new technologies, but has kept its proven shape. After all, the human hand has not changed either.

Prevents hand injuries

The outstanding design of the Kraftform handle that fits perfectly into the hand prevents hand injuries such as blisters and calluses.
