- For Phillips screws
- With reduced shaft diameter
- Particularly suitable for drywall screws
- Tough for hard materials
- 1/4" hexagon drive (Wera connecting series 1)
- In practical Bit-Box for simple removal

High quality bits for Phillips screws in a practical Bit-Box. Reduced shaft diameter to enable access to lower-lying screw connections; screws can be fastened without damaging the surface. Specially designed for drywall construction and suitable for Phillips drywall screws; 1/4" hex, appropriate for holders as per DIN ISO 1173-D 6.3.

**Bit-Box**

The slide switch allows a simple and gradual removal and reinsertion of the bits. The transparent reverse side means that it is easy to know how many bits are still in the box.

**Bits with reduced shaft diameter**

Bits with reduced shaft diameter ensure that screws can be sunk without damaging the surface. This is particularly necessary in drywall construction applications.

**Tough-absorbing bits**

Tough-absorbing Wera bits (Z) prevent any premature breakage of the drive tip.
