<b>Part number:</b>	05059573001	<b>Weight:</b>	23 g
<b>Article number:</b>	840/4 Hex-Plus Ni	<b>Country of origin:</b>	CZ
		<b>Customs tariff number:</b>	82079030

- Suitable for hexagonal socket screws
- With Hex-Plus profile (prevents hexagonal socket screws from cylindrical turning)
- Chemically nickel-plated

Tough Wera bit for hexagonal socket screws, for universal use. Chemically nickel-plated. Hex-Plus offers larger contact surfaces in the screw head. The notch effect is reduced to a minimum and the destruction of the screw is nearly eliminated. 1/4" hexagonal, suitable for holding tools as per DIN ISO 1173-F 6.3.

### Hex-Plus

Hexagon socket screws are a problem, because the contact surfaces that transfer the force of the tool to the screw are very narrow. The consequence: the head of the screw can be damaged, usually rounding out the recess. Hex-Plus tools have larger contact surfaces to prevent this, driving from the flats of the recess, rather than the corners. Good to know: Hex-Plus tools fit into every standard hexagon socket screw!

### Tough-absorbing bits

Tough-absorbing Wera bits (Z) prevent any premature breakage of the drive tip.
