TORX® with borehole (B0)

Tough-absorbing bits (Z)

TORX® tools with a borehole prevent the unauthorised unfastening of safety screws. The screws contain a pin that protrudes into the drive profile so that "normal" TORX® tools cannot be used. This pin fits into the borehole of TORX® B0 tools allowing safety screws to be unfastened.

Tough-absorbing Wera bits (Z) prevent any premature breakage of the drive tip.
