- For Phillips screws
- Diamond coating for a secure fit in the screw, literally bites into the screwhead to prevent cam-out
- Profiled version
- Particularly hard for semi-hard materials
- 1/4" hexagon drive (Wera connecting series 4)

High quality Wera bit for Phillips screws. Comes with a sharp-edged profile which breaks away the paint when e.g. screw profiles are covered in it and this ensures a dependable transfer of power between the bit and screw. The diamond coating ensures a secure fit of the bit in the screw, reduces the contact pressure required and lowers the risk of slipping. Extra-hard design. 1/4" hexagon, suitable for holders as per DIN ISO 1173-F 6.3.
