

KNIPEX Cobra® Pliers

The Original Push-Button Pliers

Self-locking on pipes and nuts = no slipping off the workpiece, no knuckle-busting

Thin head fits into tight places

The original push-button design, stays locked in place

Pinch guard protects against finger and hand pinching

Gripping surface with special hardened teeth (61 HRC) is wear resistant and grips any shape object

Gripping sizes from 1" - 3 1/2"

Forged box-joint design for higher stability

The KNIPEX Cobra Family

Perfect for gripping, holding, pressing and bending

KNIPEX Cobra® Pliers

Here's something you won't find in competitive push-button pliers today—quality and breadth of line. With 23 different products in seven sizes, KNIPEX delivers push-button perfection for nearly every application.

- ▶ Compact design and slim head provides firm grip even in tight spaces
- ▶ Push-button adjustment directly on the workpiece – adjust once and it stays set
- > Box-joint design provides high stability
- > Gripping surfaces with special hardened teeth
- > Self-locking on pipes and nuts: no slipping on the workpiece and low hand-force required
- > Pinch guard prevents fingers being pinched
- > One-handed quick adjustment without a push-button allows the tool to get into tight spaces

87 00 100 Cobra XS

- > One-handed quick adjustment without a push-button allows the tool to get into tight spaces
