

# INSTRUCTIONS

 SOLAR CHARGE BY DAY

 AUTO ON BY NIGHT

Use scenario 1: Hang accessories, which can be hung anywhere outdoors, courtyard, road, steps, camping, etc. - Figure 1

Use Scenario 2: For most 15-25-foot flagpoles, simply drop your pole and install the decorative ball on the bracket. No tools, only need 1 minute to complete. Note: Conversion hole with 16-12mm to match different diameters. (Products excluding flag poles and decorative balls) - Figure 2

Figure 1

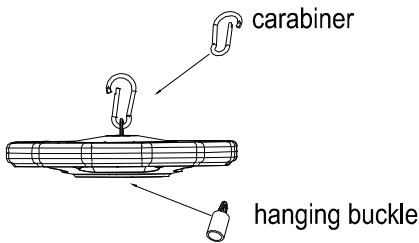

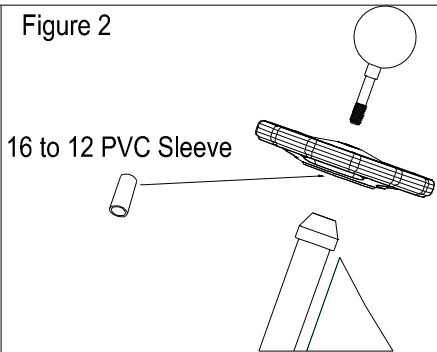

Figure 2

**Solar Technology**-We use the high quality 2600mAh lithium battery. Provides more than 12 hours of lighting with 6-hours charge in direct sunlight.

**Easy to install**- -The flagpole solar light just unscrew the top trim and screw the light back to the same position, very easy to install. Notice: Diameter of decorative shaft must be 0.5" or 0.63" to install our flagpole light hole. Or hang it elsewhere to provide lighting.

The solar flagpole lights has built-in dusk-to-dawn photocell, automatically turns on at sundown/night and off at sunrise/daytime. When there is not enough sunlight, you can switch the button to adjust the brightness to 50% (as shown below)

Buttons switch: ON 100% / NO50% / OFF
