

CLASSIC RO/DI Filtration Systems

The Classic Series offers **Four Stages** of **Filtration**

S

Sediment Filter

Traps particulate matter like dirt, silt and rust which will affect the taste and appearance of your water.

C

Carbon Block Filter

Activated carbon reduces chlorine and conditions the water prior to the RO Membrane.

RO

RO Membrane

Reduces impurities known as Total Dissolved Solids (TDS) reducing arsenic, lead, parasitic cysts, copper and more.

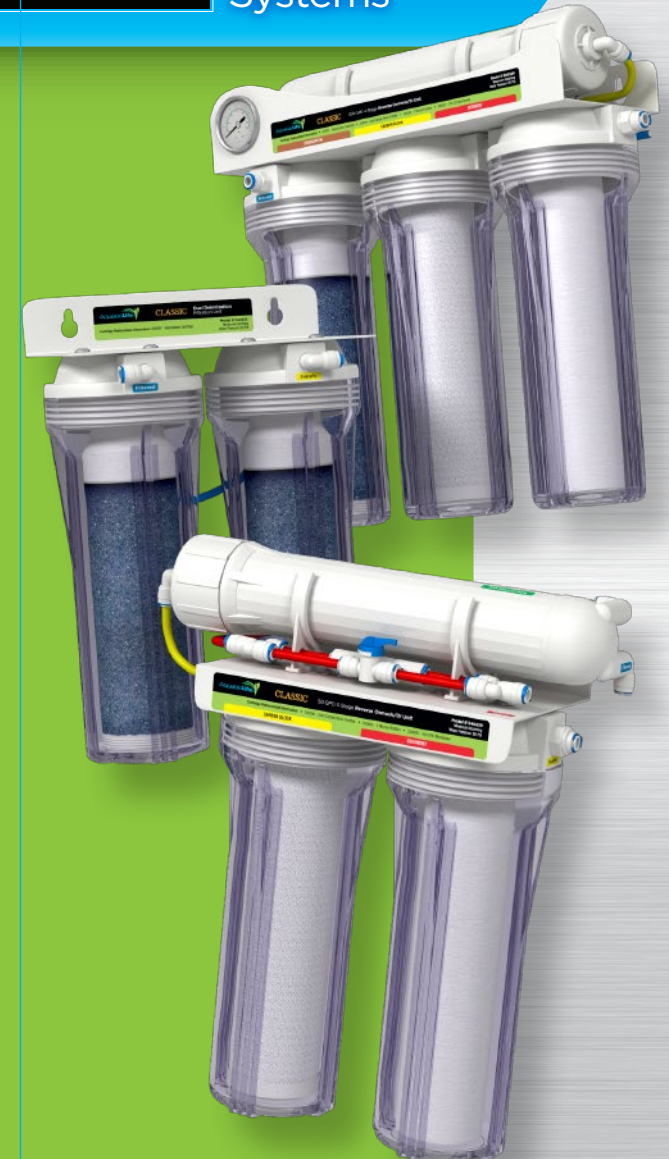

DI

Deionization

Filters remaining TDS from non-drinking water applications. Resin changes color as it absorbs the TDS. When all resin has changed color it is time to replace the DI filter.

Premium Features

Flush Valve makes it easy to rinse the membrane

Auto shut-off valve shuts off incoming water supply when not producing filtered water

DI Resin changes to tan color when exhausted

COLOR-CHANGING RESIN!

Liquid-filled Pressure Gauge makes it easier to know when to change cartridges

Choosing the Right Setup

Includes	Classic 3-Stage RO	Classic 4-Stage RO/DI	Classic Dual DI
10" 1-Micron Sediment Cartridge	1	1	NA
10" 5-Micron Carbon Block Cartridge	1	1	NA
10" Color Changing DI Resin Cartridge	No	1	2
TFC RO Membrane	50 GPD	100 GPD	NA
Garden Hose/Laundry Faucet Connection	Yes	Yes	NA
Canister Wrench	Yes	Yes	Yes
Membrane Wrench	Yes	Yes	NA
Tubing	30 FT	30 FT	4 FT
Membrane Flush Valve	Yes	Yes	NA
Liquid-Filled Pressure Gauge	No	Yes	No
Auto Shut Off Valve	No	Yes	NA
Smart Buddie Booster Pump Compatible	Yes	Yes	NA

Thinking SMART

Add a Smart Buddie Booster Pump to your RO or RO/DI System to reduce waste water and prolong membrane life.

3+2=

Add a Dual-DI to a 3-Stage RO Unit to increase filtration efficiency.
