

# Miko 3.

A New Window  
into the World.

# Miko's Mission

At Miko, our mission is to humanize technology by creating robots that engage, entertain and educate children. We want to empower parents by providing them with a safe gateway to technology for their kids.

Introducing  
**Miko 3**

# A healthier gateway to technology

Miko 3 is designed with a bigger touchscreen, which is a healthier alternative to playtime on phones and tablets.

# Miko 3 knows how to connect with kids

Powered by AI and Deep Learning, Miko 3 is expressive and curious, allowing it to adapt and create bonds with any child.

# Learn while having fun

Miko 3 engages children with a range of thousands of academic topics while still creating a fun user experience.

# Access Miko 3's rich app library with MikoMax

# Helping parents meet every need

Miko 3 is designed with the challenges of modern parenting in mind. From Data Encryption to Remote Video chats, we know what parents need.

# Your kids' safety is our top priority.

Miko 3 is designed to keep data private through data encryption and strict privacy policies. Miko will never share your data with other companies.

# Never miss a moment

With the Miko Parent App, you can video chat with your little one anytime you like and monitor their safety remotely.

# The science behind Miko 3

Developed by a team of 14  
different disciplines, varying from  
teachers to data scientists, Miko  
3 has the emotional intelligence  
to understand and engage with  
the varying temperaments of  
children.

and operations

# What They're Saying

**Forbes**

Teaching emotional intelligence and empathy is more important than ever.

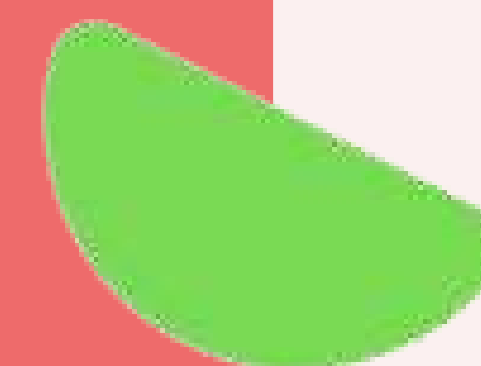

Equipped With An Emotional Intelligence Machine, Miko 3 Identifies, Recollects, And Remembers The Child's Moods, Growing With Every Interaction.

**GISTGEAR**

**HEADLINES  
TODAY**

Miko 3 is an 'emotionally intelligent' robot that uses playful, conversational learning to educate, engage and entertain kids.

# What They're Saying

**Techwalla**

It's a learning tool, but it also brings wit, friendship, and excitement into your child's life.

The future is here, folks!

**redbook**

**BuzzFeed**

Miko 3 is packed with games and educational content and can play, help with homework, and act as a video chat device when you want to check in on the kid.

This robotic pal is packed with personality, almost as much as your little one!

**KnowTechie**
