

TOOLS OF THE YEAR 2021: SHOP SUPPLIES

WE SEARCHED THE LATEST INNOVATIONS FROM MANUFACTURERS FOR A TOOL CHEST OF NECESSITIES ON THE FARM AND RANCH.

By Dave Mowitz
9/23/2021

This is the Shop Supplies category of the exclusive Successful Farming "**Tools of the Year**" program to highlight innovations and must-have tools and shop supplies for your farm operation. These tools will help you get the job done.

Our editor selected one tool as an "Editor's Choice" and other tools as "Recommended" in Power Tools; Hand Tools; Ratchets & Sockets; Metalworking; Shop Supplies; Lighting; Workbenches & Tool Chests; and Shop Essentials.

SYNTHETIC PENETRATING FLUID DRIES TO A HARD COATING

StrikeHold is a fast-acting **synthetic penetrating compound** that goes on wet and dries in place, leaving a hard coating that protects equipment against moisture and corrosion while providing extended lubrication.

As a lubricant, StrikeHold cuts through dirt, rust, and corrosion, getting into metal parts that have become frozen.

As a bonus, the penetrating fluid can help to waterproof and dry out wet electrical gear and other water-sensitive parts.

Notes:

StrikeHold is available to buy in Australia from www.strikehold.com.au or you can obtain more information from info@strikehold.com.au
