

CUTTER SELECTOR GUIDE

KEENCUT
THE WORLD'S FINEST CUTTING MACHINES

Precision Bench Top Cutters

I want to cut a range of rigid and flexible materials including PVC foamboard, fluted plastics, card, banner, paper, films and textiles

I need to cut pop-up banners, wallpapers and/or other cut joined panels. Ultra High Precision is essential.

I would like a future proof solution and maximum flexibility for use in a production facility

0.2

Evolution E2

Integrated wide format cutting system designed to revolutionise the speed, accuracy and convenience of the finishing process

- Vertical cutting action & interchangeable tools
- Leave worktop clear with cutter hinge-down feature
- Integrated lifters
- Fit to any bench
- 5 sizes: 1.6m, 2.1m, 2.6m, 3.1m & 3.6m

The E2 Bench, plus cutter, provides the complete professional solution

Evolution E2 Bench

Accessory for the Evolution E2

- Integrated aluminium base for quick and easy mounting of the Evolution E2
- High grade, precision alloy construction for supreme strength & lasting resistance to abrasions & damage
- Unique joint lock gives double safety under heavy load and an ultra rigid structure
- Extension kits available

I am not so concerned with high levels of flexibility or production, I just want perfect results

0.2

I already have a flat, stable bench to mount the cutter on

Javelin Integra

An Ultra High Precision cutter bar with the added convenience of an integrated base and lifting handles

- Slimline base fits any bench
- Vertical cutting action & interchangeable tools
- 4 sizes: 1.6m, 2.1m, 2.6m & 3.1m

Our cutting bench is an ideal partner for the Javelin Integra

Cutting Bench

For use with the Javelin Integra or as a stand-alone bench

- High grade, precision alloy construction for supreme strength & lasting resistance to abrasions & damage
- Unique joint lock gives double safety under heavy load and an ultra rigid structure
 - Height adjustable feet on all benches

I need a cutter and a bench to mount it on for a full cutting solution

0.2

Javelin S2

Can be used as a portable cutting solution but best suited to mounting on the optional BigBench

- Portable or bench mounted
- Vertical cutting action & interchangeable tools
- 5 sizes: 1.1m, 1.6m, 2.1m, 2.6m & 3.1m

BigBench: Designed for the Javelin

BigBench

Purpose built bench for the Javelin Series 2

- Integral Lift & Hold Mechanisms
- Full-length adjustable baseplate with cutting groove
- High grade, precision alloy construction for supreme strength & lasting resistance to abrasions & damage
- Unique joint lock gives double safety under heavy load and an ultra rigid structure

High Precision Cutting is fine for my application.

I would like a cutter bar without a base that can be used for general purpose work and taking to site

1.0

Simplex

Lightweight, general purpose alternative to the Javelin S2

- Lightweight and portable
- Ergonomic rocker-style cutting head
- 5 sizes: 1.1m, 1.6m, 2.1m, 2.6m & 3.1m

I need the portability of a cutter mounted on a baseboard that I can take to the work station when required

1.0

Sabre S2

Ideal for one-off or volume production. Precision slide-way constructed on a robust anodised aluminium baseboard

- Use on a bench or attached to the optional stand
- Integral baseplate with hinge arms
- Vertical cutting action & interchangeable tools

I need a heavy-duty board cutter for producing a clean finished edge on aluminium composite panel, PVC foamboard, fluted plastics, corrugated card and other rigid materials

SteelTraK

Robust, reliable and easy to use

- Turn and lock ready mounted tools
- Perma-lock squaring for accurate cutting every time
- Same cut line for all tools
- Low friction ball bearings on a steel track
- Telescopic legs for user customisation
- Full-length, extra-grip clamping system
- 20 year replacement guarantee on all sliding bearings
- 3 sizes: 165cm, 210cm & 250cm

Lighter duty board cutter available: Excalibur 5000

STEELTRAK
