

Bible Print Sizes

Kindly print this document for an accurate assessment of type sizes, as screen displays may not provide precise sizing. Please print on A4 paper, ensuring the settings are adjusted to "Actual size", "100% normal size" or "no scaling". A ruler is provided below to assist in verifying that this page has been printed to show the correct size.

Bibles are published in many different sizes and formats, so the font styles and line spacing can vary considerably. The font used for the sample print sizes listed below is Pona.

This sample is intended as a general guide only; in other fonts, print sizes may appear slightly smaller or larger than those shown here.
