Apply for a Humm account and get approved for up to \$7500; it only takes a few minutes and is available at the checkout or by giving us a call.

**Live interest freeeee forever!**

# FABRIC & COLOURS

When choosing a fabric for your new outdoor blinds the amount and type of protection will dictate which material is best.

Our fabrics are made to world-leading standards designed to tackle the harsh Australian climate and best of all they are backed by our 5-year warranty.

## SPECIFICATIONS

95% SHADE & UV-R BLOCK

95% WIND & RAIN BLOCK

PRIVACY (LOOKING IN): MEDIUM

VISIBILITY (LOOKING OUT): HIGH

ROLL WIDTH: 3.05m

2x2 WEAVE

5% OPENNESS

5 YEAR WARRANTY

COLOURS INSPIRED BY:

**Colorbond®**

## SUNSCREEN 95

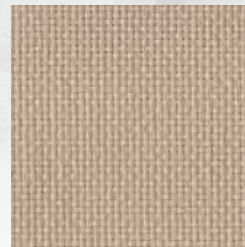

The Sunscreen Range Blocks 95% of Sun, Wind and Rain. It keeps in winter warmth and allows you to keep your view whilst reducing glare and creating privacy from the outside looking in.

It's a great all year round fabric, making it the most popular fabric choice in our range.

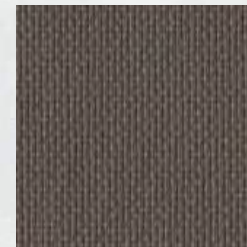

## SUNSCREEN 95 COLOURS

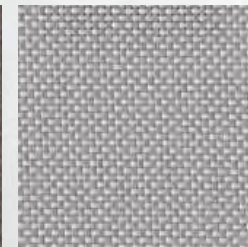

CLASSIC CREAM 95

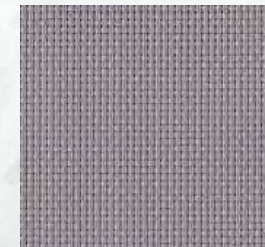

PAPERBARK 95

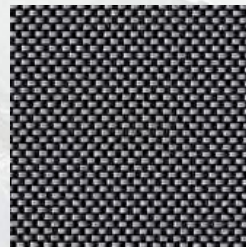

JASPER 95

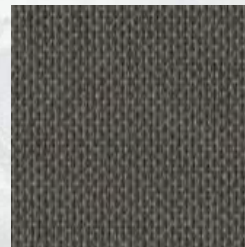

SHALE GREY 95

DUNE 95

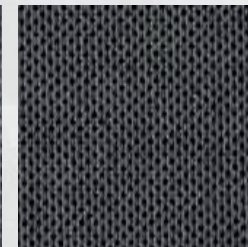

GREY BLACK 95

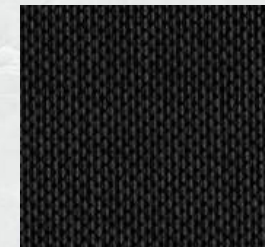

WOODLAND GREY 95

BASALT 95

MONUMENT 95

EBONY 95

\*\* RESULTS CAN VARY +/- 5%. COLOURS ARE INDICATIVE ONLY, PLEASE CHECK WITH SWATCHES FOR FABRIC SELECTION.

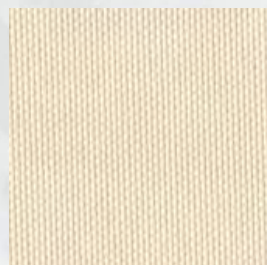

## PRIVACY 99%

The Privacy Range Blocks 99% of Sun, Wind and Rain.

As the name suggests, it's designed to create more privacy but is harder to see out; and the tighter weave gives that little bit of extra protection.

This is the ideal fabric choice when privacy is the primary purpose of the blind.

# OPERATING YOUR OUTDOOR BLINDS

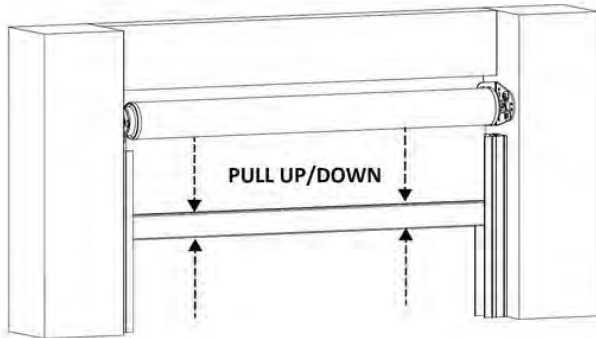

There are **three ways** to operate your outdoor blinds; Manual control is cost-effective and available in two configurations: **Spring Assisted** & **Gearbox Operated**, or you can control your blinds from afar by **Remote Control**.

## SPRING ASSISTED

A pre-tensioned spring sits hidden inside the top roller; you simply pull the blind up and down to the desired position.

Quick and easy to use.

**RECOMMENDED FOR BLINDS UP TO 3.5M IN WIDTH.**

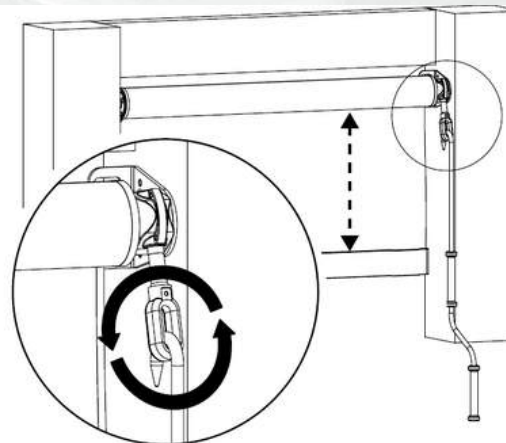

## GEARBOX OPERATION

Wind up and down using the removable handle. This simple design is easy to use and allows for fabric tensioning.

Ideal for outdoor blinds that are too high to reach.

**SUITABLE FOR ALL BLIND SIZES.**

## REMOTE CONTROL

As simple as pressing a button on the remote control, the blind can be positioned at any height.

Whisper quiet.

Ideal when operating more than one blind at a time.

**SUITABLE FOR ALL BLIND SIZES.**

# SMART HOME READY

## AUTOMATION

As simple as pressing a button on the remote, motorised blinds can be positioned at any height and can be paired with optional Sun & Wind sensors for peace of mind or controlled by your smartphone with the Neo Smart Box.

## NEO SMART BOX

Seamlessly integrates with your home automation system, voice control assistants via WiFi and uses a smartphone app to control your blinds from anywhere in the world.

**GOOGLE HOME, AMAZON  
ALEXA & SIRI COMPATIBLE.**

## SUN & WIND SENSOR

Automatically adjusts the position of an outdoor blind based on wind speed and / or a preset amount of sunlight.

# PIVOT ARM AWNING

## PRODUCT DESCRIPTION

Ideal for sliding doors or windows, the arms pivot from the centre to easily create overhead shade or completely cover the opening.

The inclination of the spring-loaded arms provides precisely the right angle to allow for shade while permitting light and airflow, creating a larger area between the awning and the window or opening.

## OPERATION

- Gearbox Operation
- Remote Control

## SPECIFICATIONS

**MAX WIDTH:** 3900mm

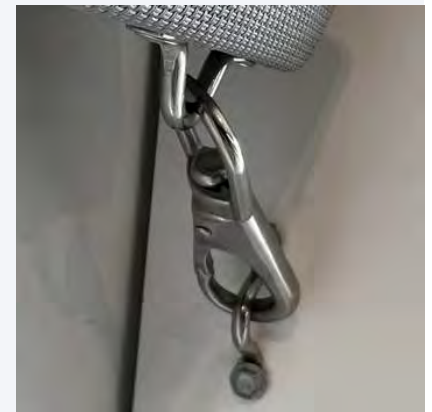

**MAX HEIGHT:** 2400mm

**MAX m2:** 10m<sup>2</sup>

# THE RETRACTABLE

## PRODUCT DESCRIPTION

Quick and easy to use, the Retractable is suited to smaller openings.

Easy to pull up and down and comes as standard with grab handle & Stainless Steel Snap Locks to secure in multiple positions.

## OPERATION

- Spring Assisted

## SPECIFICATIONS

**MAX WIDTH:** 3000mm

**MAX HEIGHT:** 2400mm

**MAX m2:** 7.2m2

# TWIST LOCK CHANNEL

## PRODUCT DESCRIPTION

The Twist Lock is easy to use and can be secured at any height by simply pulling the base-rail down and twisting to lock.

The Side Channels cover the gap between the post/wall and the fabric.

## OPERATION

- Spring Assisted

## SPECIFICATIONS

**MAX WIDTH:** 3000mm

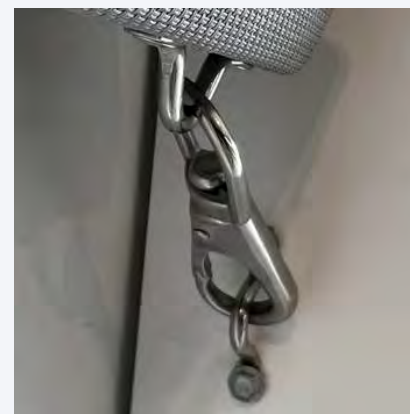

**MAX HEIGHT:** 2400mm

**MAX m2:** 7.2m2

# STRAIGHT DROP CRANK

## PRODUCT DESCRIPTION

The Straight Drop Crank is our most versatile blind, suited for larger expanses or windy areas.

It can be installed between posts/walls, on the face of a beam or to the underside of a ceiling and comes with stainless steel snap locks to secure at any height and tension.

## OPERATION

Gearbox Operation.

## SPECIFICATIONS

**MAX WIDTH:** 5500mm

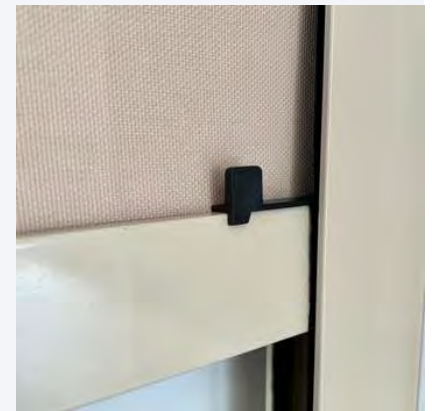

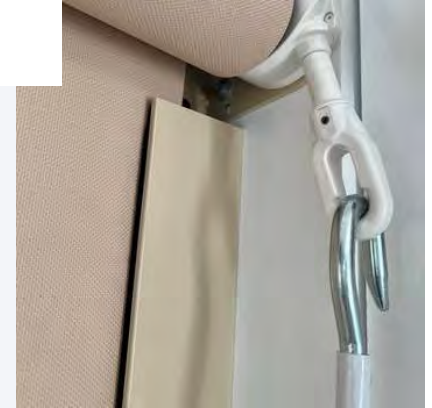

**MAX HEIGHT:** 3000mm

**MAX m2:** 16.5m2

# HEAVY DUTY CHANNEL

## PRODUCT DESCRIPTION

The Heavy Duty Channel is suited to larger expenses or windy areas; the powder-coated aluminium side channels cover the gap between the inside of the post/wall and the fabric.

The blind can be secured using the locking pins at adjustable levels, which allow for fabric tensioning.

## OPERATION

- Gearbox Operation
- Remote Control

## SPECIFICATIONS

**MAX WIDTH:** 5500mm

**MAX HEIGHT:** 3000mm

**MAX m2:** 16.5m2

# WIRE GUIDE

## PRODUCT DESCRIPTION

The Wire Guide is ideal for scenarios with no posts or walls to secure the blind; the pre-tensioned wires act as a guide for the base rail; this means the blind can be positioned at any height.

## OPERATION

- Gearbox Operation
- Remote Control

## SPECIFICATIONS

**MAX WIDTH:** 5500mm

**MAX HEIGHT:** 3000mm

**MAX m2:** 16.5m<sup>2</sup>

# ZIPLOCK<sup>®</sup>

## SIDE-RETAINED OUTDOOR BLIND

### PRODUCT DESCRIPTION

Ziplock<sup>®</sup> creates a weatherproof barrier keeping you protected from the Sun, Wind, Rain & Insects.

The unique side retention system keeps the fabric locked in on the sides while still allowing it to guide at every position.

Ziplock<sup>®</sup> is designed to handle the harshest Australian conditions, and being an Aluminium system, means it's perfectly suited to coastal conditions.

### OPERATION

- Spring Assisted
- Gearbox Operation
- Automation

### SPECIFICATIONS

**MAX WIDTH:** 6000mm  
**MAX HEIGHT:** 4000mm  
**MAX m2:** 16.5m2

HEAD BOX**

**OPTIONAL  
WEATHER SEAL**

**SIDE  
RETENTION  
SYSTEM**

# ACCESSORIES & OPTIONS

We offer a wide range of optional extras to help complete your project, add functionality & style to your chosen product.

## CRANK HANDLE

Crank Handles are used wind a Gearbox Operated blind up and down; It simply hooks into the loop on the end of the gearboxes shaft and is turned to move the blind.

The length is determined by measuring from the top of the blind to somewhere between shoulder and waist height for optimal use.

## PULL STICK

Use a Pull Stick to reach the base rail on an out of reach Spring Assisted blind; simply hook and pull.

1200mm in length as standard.

## HEADBOX

Headbox is an extruded aluminium enclosure designed to hide the top roller and is 140x140mm in overall dimensions.

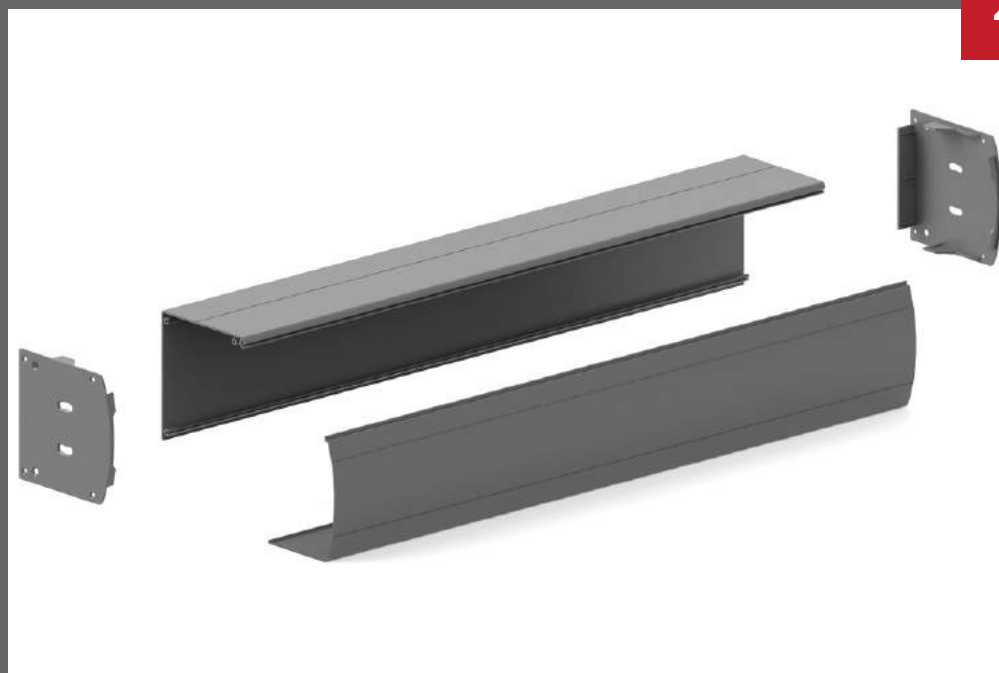

**There are two available variations:**

**Fully Closed** – for Spring Assisted or Motorised blinds.

**Semi Closed** – for Gearbox Operated blinds.

**COMPATABLE PRODUCTS:**

ANY OZRITE OUTDOOR BLIND

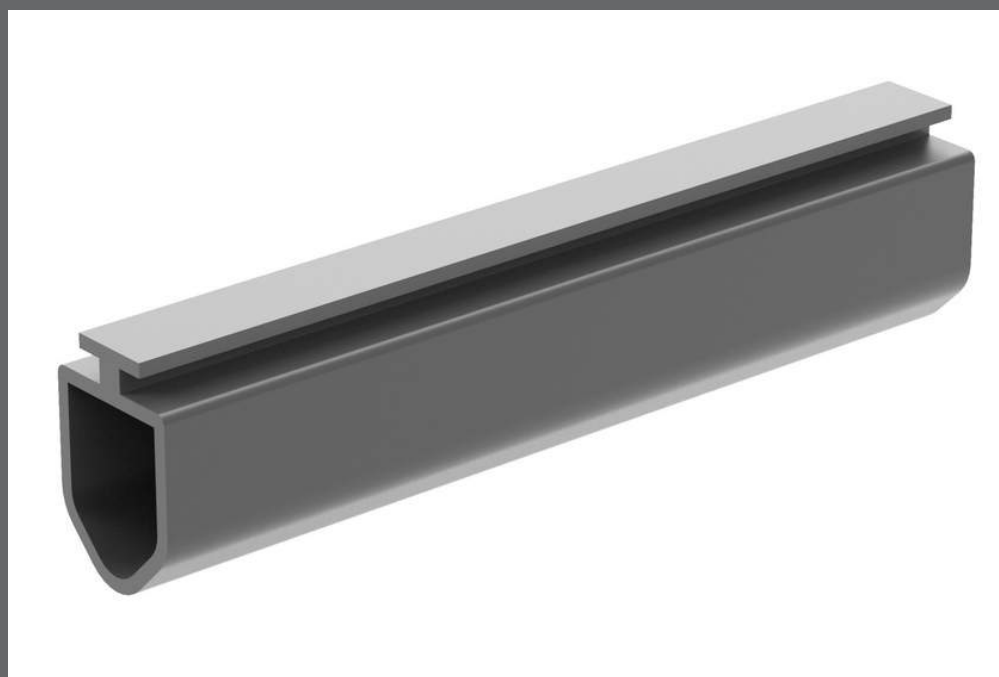

## WEATHERSEAL

This 20mm rubber strip slots into the underside of the base rail.

Its primary purpose is to cushion the base rail from impact and close small gaps under the blind due to sloping floors.

**COMPATABLE PRODUCTS:**

WIRE GUIDE, HEAVY DUTY CHANNEL & ZIPLOCK

# MEASURING GUIDE

It won't take long; just follow these simple instructions.

## WHAT YOU NEED

**TAPE MEASURE**

TOOL IF YOU HAVE ONE

**PEN/PENCIL**  
TO NOTE DOWN  
YOUR SIZES

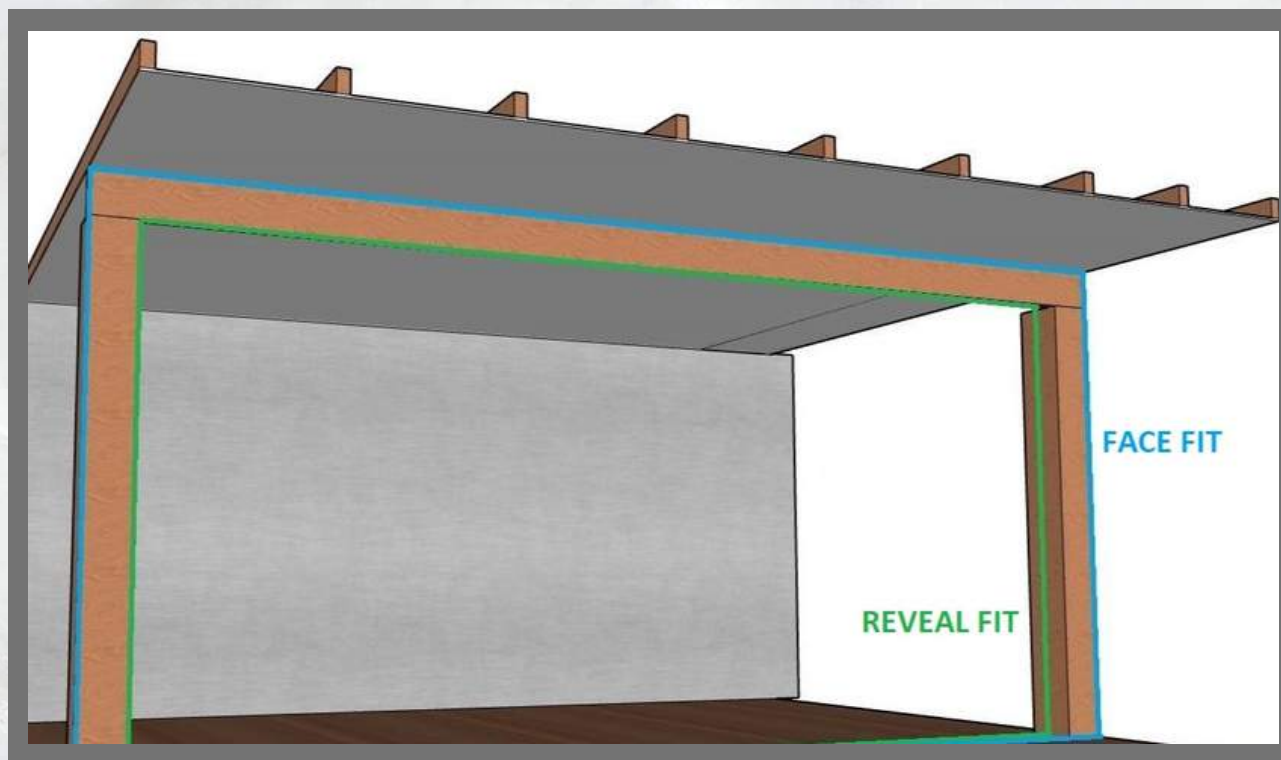

**MEASURING SHEET**  
THE BACK PAGE  
OF THIS BOOKLET

## REVEAL OR FACE FIT?

There are two ways to Measure & install Outdoor Blinds:

**Reveal Fit:** inside a recess or between posts.

**Face Fit:** on the face of a beam, post or wall.

# HOW TO MEASURE REVEAL FIT

## WIDTH

- Measure from one side of the opening to the other at the top – note this measurement.
- Measure from one side of the opening to the other at the bottom – note this measurement.
- Use the smallest size for your order.

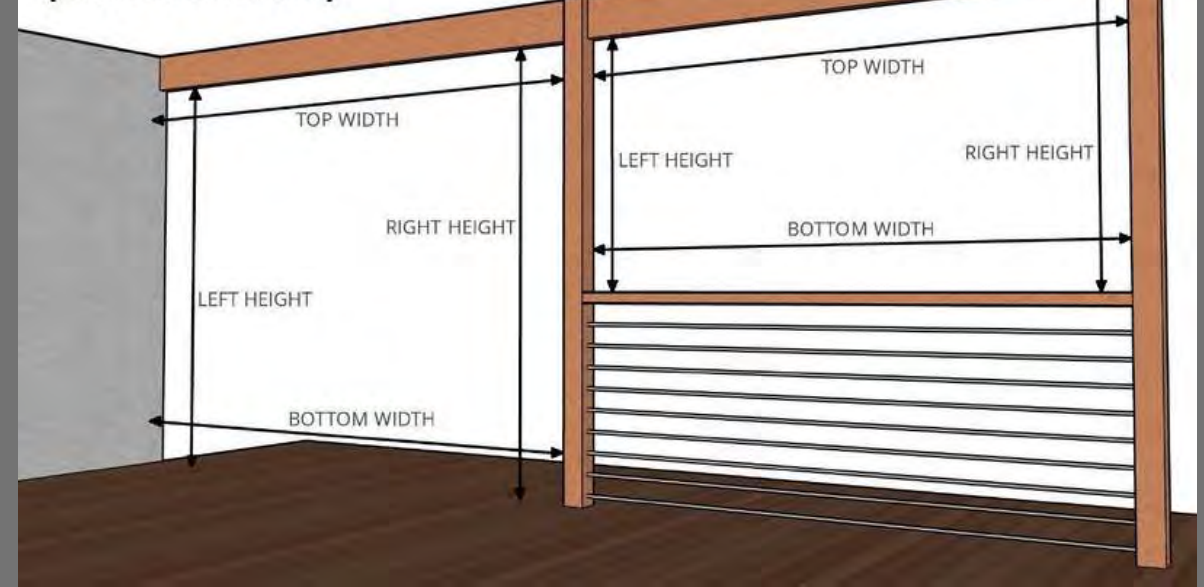

*Note: If the difference between these widths is greater than 10mm, then some packing or levelling will be required to ensure a snug fit for your blinds.*

## HEIGHT

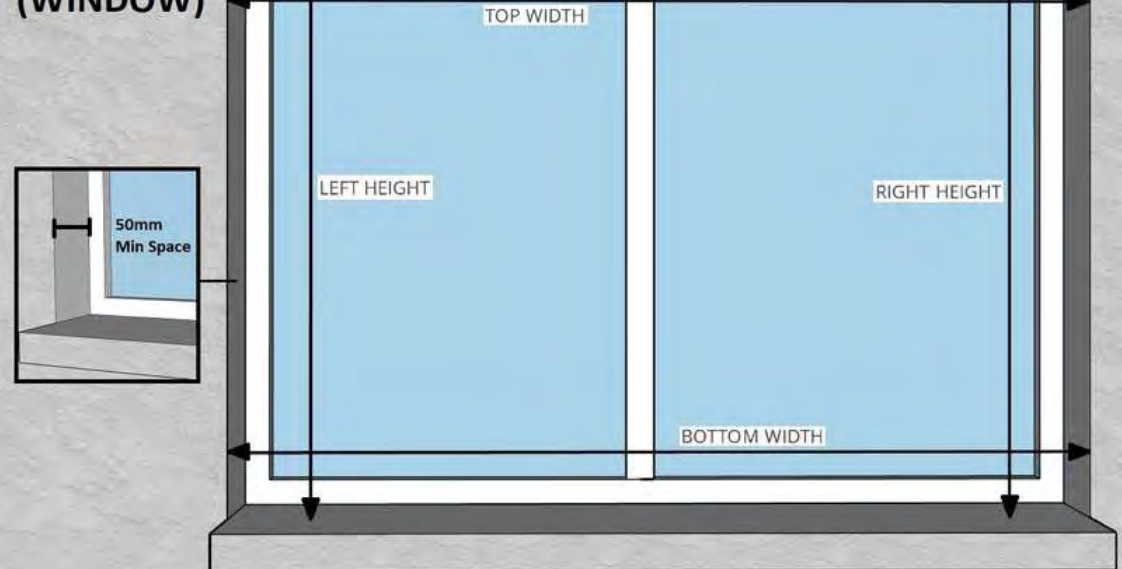

- Measure from the top left side of the opening to the point you want your blind to stop – note this measurement.
- Measure from the top right side of the opening to the point you want your blind to stop – note this measurement.
- Use the longest size for your order.

*Note: It is normal to have some variation in the height, usually to allow water to run away from the house.*

## REVEAL FIT (INSIDE MOUNT)

## REVEAL FIT (WINDOW)

# HOW TO MEASURE FACE FIT

## WIDTH

- Measure from one side of the opening to the other at the top – note this measurement.
- Measure from one side of the opening to the other at the bottom – note this measurement.
- Add 100mm (50mm on each side) to these measurements to allow for sufficient overlap for installation.
- Use the smallest measurement as the actual width.

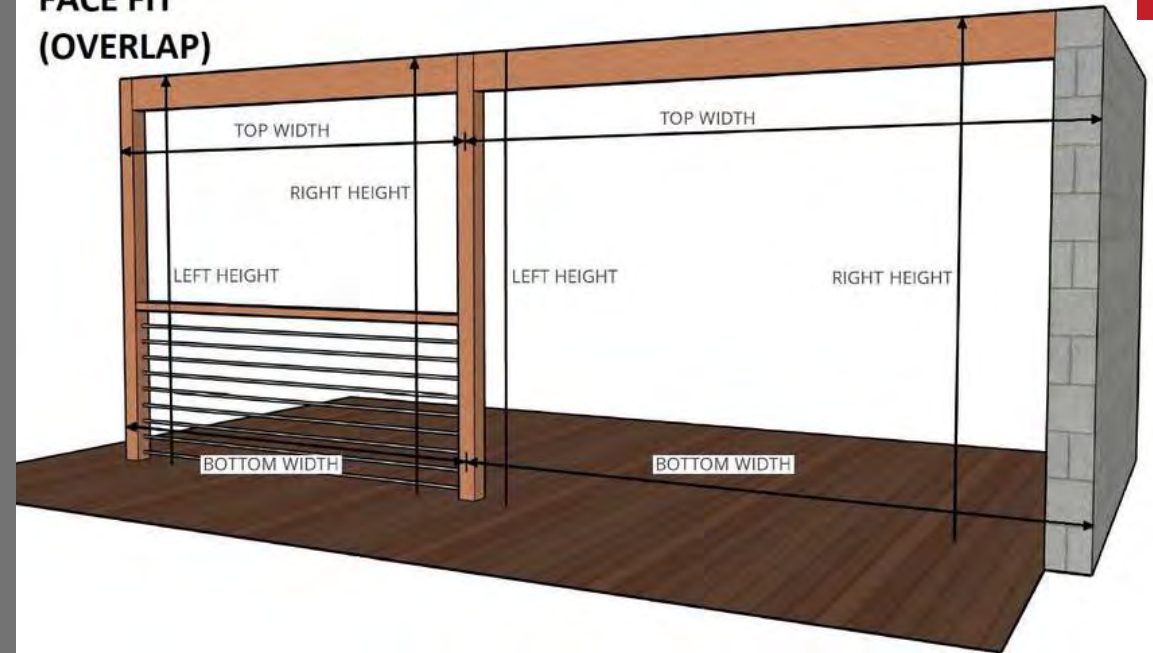

*Note: Overlap the opening by more than 50mm on each side if you have enough room to minimise light gaps and hide installation hardware from the inside.*

## HEIGHT

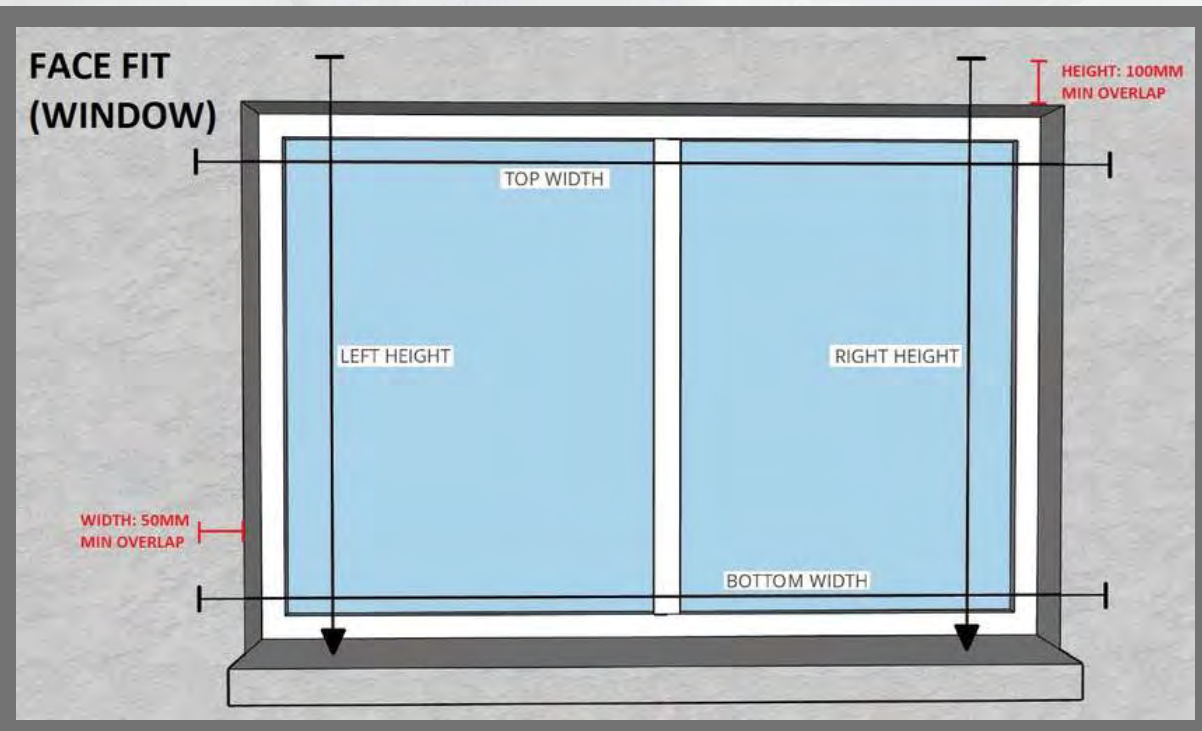

- Measure from the highest point on the face of your beam on the left side of the opening to the point you want your blind to stop – note this measurement.
- Measure from the highest point on the face of your beam on the right side of the opening to the point you want your blind to stop – note this measurement.
- Use the longest measurement for your order.

*Note: A minimum of 100mm is required to install the brackets. It is normal to have some variation in the height, usually to allow water to run away from the house.*

## FACE FIT (OVERLAP)

## FACE FIT (WINDOW)

## MEASURING SHEET

USE THIS SHEET TO LAYOUT AND NOTE YOUR MEASUREMENTS, THE SIZES WE REQUIRE ARE THE OVERALL BLIND SIZES, AND WE WORK EVERYTHING OUT TO FIT WITHIN THIS SPACE.

WHEN MEASURING, ALWAYS LOOK FOR OBJECTS LIKE AIR CONDITIONERS OR DOWNPIPES, AND TAKE THEIR POSITION INTO ACCOUNT TO ENSURE YOU HAVE A CLEAR SPAN.

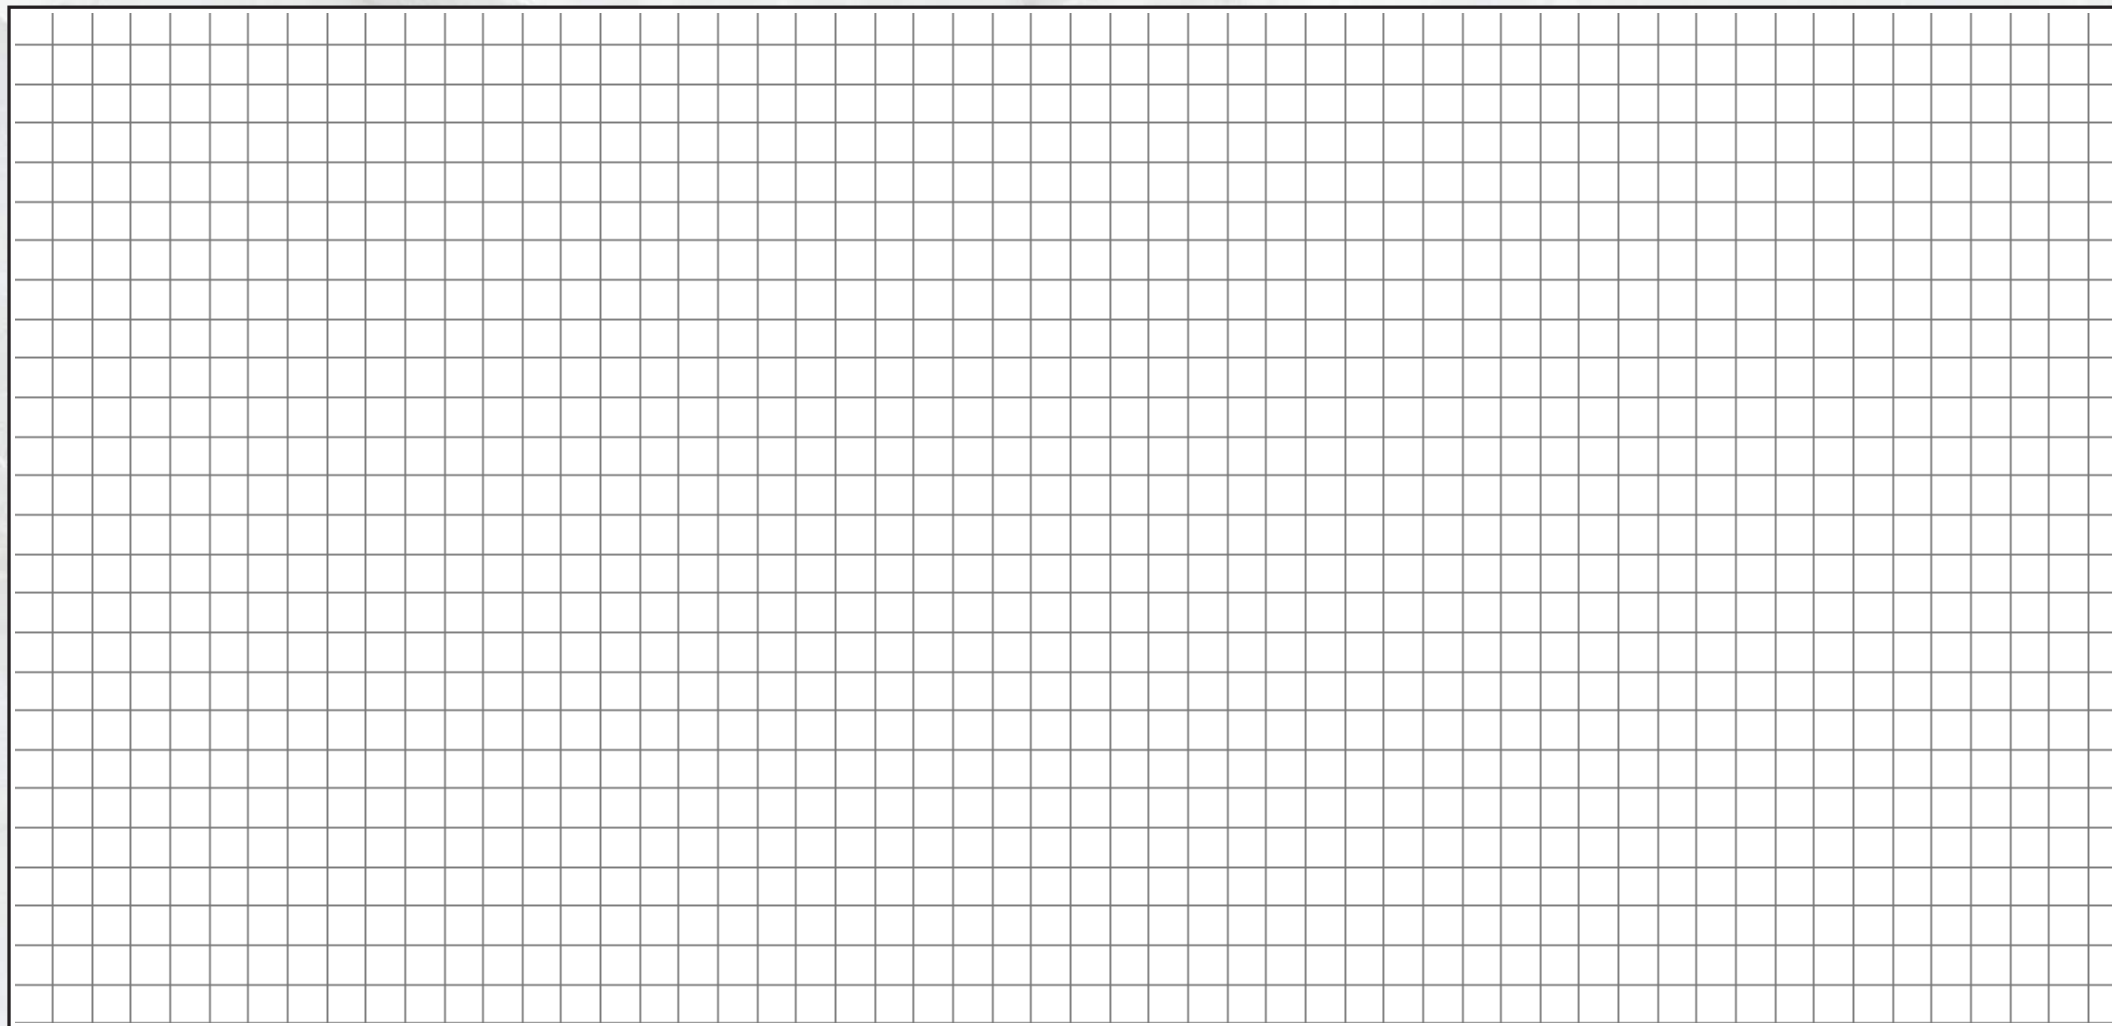

BLIND NO.	WIDTH (IN MM)	HEIGHT (IN MM)	BLIND TYPE	FABRIC	OPERATION (+ CONTROL SIDE)	NOTES/COMMENTS
1	TOP	LEFT		TYPE	<input type="checkbox"/> SPRING	
	BOTTOM	RIGHT		COLOUR	<input type="checkbox"/> GEARBOX L <input type="checkbox"/> R <input type="checkbox"/>	
				<input type="checkbox"/> MOTOR L <input type="checkbox"/> R <input type="checkbox"/>		
2	TOP	LEFT		TYPE	<input type="checkbox"/> SPRING	
	BOTTOM	RIGHT		COLOUR	<input type="checkbox"/> GEARBOX L <input type="checkbox"/> R <input type="checkbox"/>	
				<input type="checkbox"/> MOTOR L <input type="checkbox"/> R <input type="checkbox"/>		
3	TOP	LEFT		TYPE	<input type="checkbox"/> SPRING	
	BOTTOM	RIGHT		COLOUR	<input type="checkbox"/> GEARBOX L <input type="checkbox"/> R <input type="checkbox"/>	
				<input type="checkbox"/> MOTOR L <input type="checkbox"/> R <input type="checkbox"/>		
4	TOP	LEFT		TYPE	<input type="checkbox"/> SPRING	
	BOTTOM	RIGHT		COLOUR	<input type="checkbox"/> GEARBOX L <input type="checkbox"/> R <input type="checkbox"/>	
				<input type="checkbox"/> MOTOR L <input type="checkbox"/> R <input type="checkbox"/>		
5	TOP	LEFT		TYPE	<input type="checkbox"/> SPRING

				<input type="checkbox"/> MOTOR L <input type="checkbox"/> R <input type="checkbox"/>		

## FLOOR LAYOUT

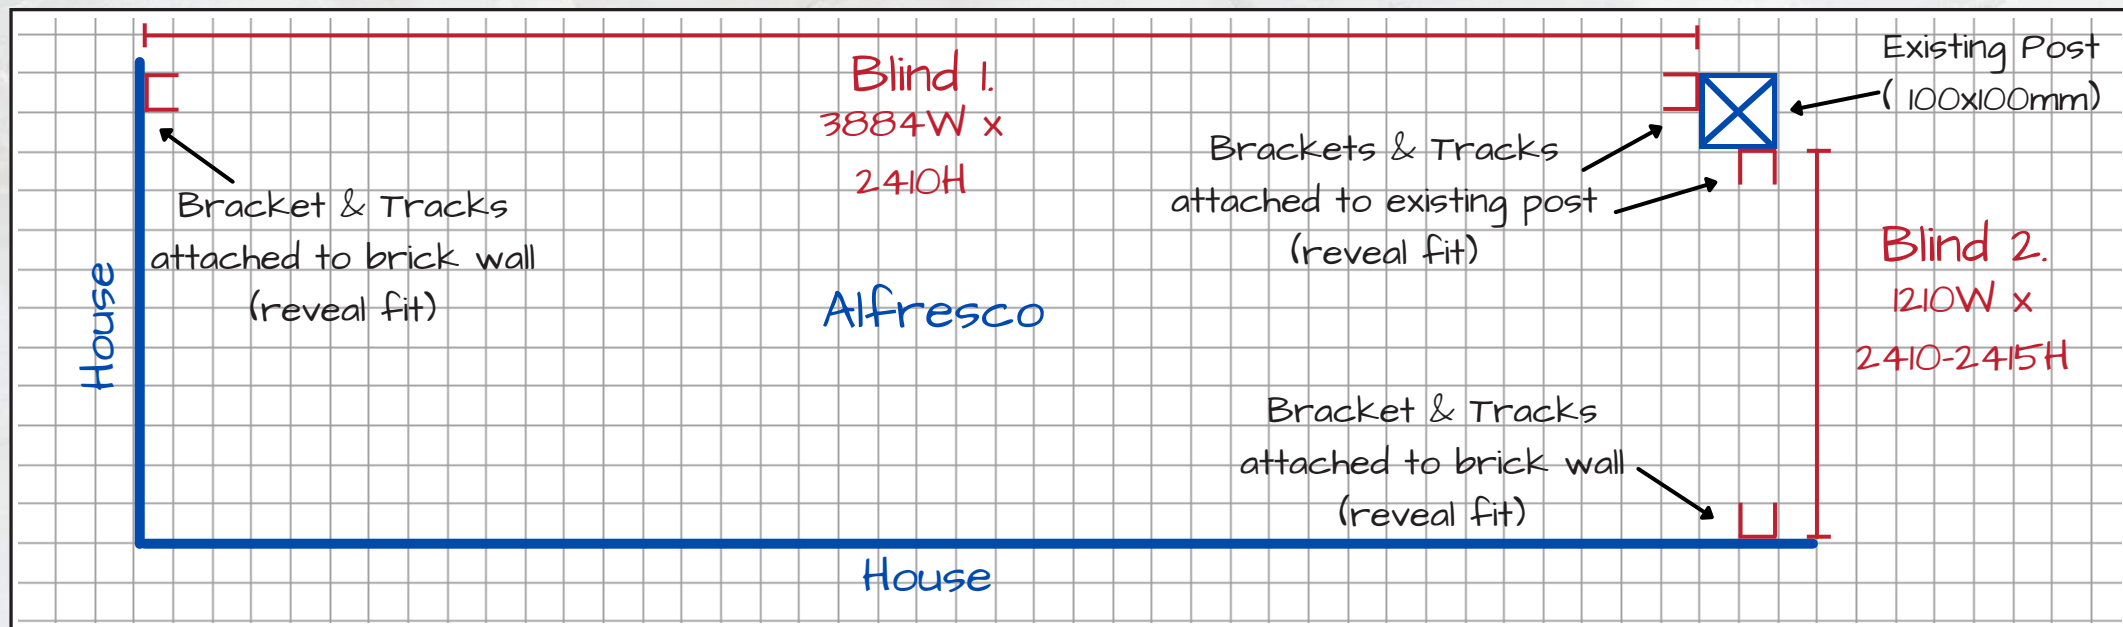

USE THIS GRID TO SKETCH OUT A BIRD'S EYE VIEW OF YOUR AREA, THEN ADD YOUR MEASUREMENTS ALONG WITH ADDITIONAL DETAILS OR OBSTRUCTIONS TO GET A CLEAR PLAN TO WORK OFF.

AN EXAMPLE FOR 2X ZIPLOCK BLINDS FOR AN L SHAPED ALFRESCO IN A REVEAL FIT SCENARIO.

IN THIS EXAMPLE, THE CUSTOMER WANTS TO OPERATE BOTH BLINDS FROM THE SAME CENTRAL POST, AND THE CONTROL SIDE HERE WOULD BE DETERMINED FROM THE INSIDE LOOKING OUT.

BLIND NO.	WIDTH (IN MM)	HEIGHT (IN MM)	BLIND TYPE	FABRIC	OPERATION (+ CONTROL SIDE)	NOTES/COMMENTS
1	TOP 3884	LEFT 2410	Ziplock	TYPE Sunscreen	<input type="checkbox"/> SPRING	1x 1200 long Crank Handle.
	BOTTOM 3886	RIGHT 2410		COLOUR Ebony 95	<input checked="" type="checkbox"/> GEARBOX L <input type="checkbox"/> R <input checked="" type="checkbox"/> <input type="checkbox"/> MOTOR L <input type="checkbox"/> R <input type="checkbox"/>	
2	TOP 1210	LEFT 2410	Ziplock	TYPE Sunscreen	<input type="checkbox"/> SPRING	
	BOTTOM 1210	RIGHT 2415		COLOUR Ebony 95	<input checked="" type="checkbox"/> GEARBOX L <input checked="" type="checkbox"/> R <input type="checkbox"/> <input type="checkbox"/> MOTOR L <input type="checkbox"/> R <input type="checkbox"/>	

WIDTH: ORDER TO THE SMALLEST WIDTH - WE CAN WORK WITH A VARIANCE OF 10MM; ANYTHING ABOVE THIS REQUIRES SOME PACKING/LEVELLING.

HEIGHT: ORDER TO THE LONGEST SIDE - IT IS NORMAL TO HAVE SOME VARIATION HERE, USUALLY SO THAT WATER CAN SLOPE AWAY FROM THE HOUSE.

## ..... READY TO ORDER?
