## MILITARY SPECIFICATION VITON™ RUBBER

**NAME:** VITON™ MIL SPEC  
Mil-R-83248 Type II, Class II, AMS-3218

~EXCELLENT HIGH TEMPERATURE  
SUSTAINABILITY AT 400°F/200°C ~  
~EXCELLENT CHEMICAL RESISTIVITY~

**90 DUROMETER**

Tensile Strength: 1,800 psi

Elongation Max: 100% min

**SURFACE: SMOOTH**

Color: BLACK

Compressin Set: 15% max

Rubber Temperature: -20 F° to 400 F° <<<< **TEMPERATURE**

**TOP OF THE RUBBER CHAIN**

\*\*\*Our rubber products are blended of various polymers formulated to meet stated physical specifications.  
Recommendations made by American Material Supply in its product literature relating to applications of the rubber are believed to be reliable, but we make no warranty of results to be obtained since the conditions of the end application by Buyer and others are beyond American Material Supply's control.\*\*\*
