## REINFORCED NEOPRENE

**NAME: NEOPRENE CLOTH INSERTED**

RUBBER: POLYCHLOROPRENE -- CLOTH INSERT: NYLON

Fuel Resistance: GOOD  
Tear Resistance: EXCELLENT  
Solvent Resistance: GREAT  
Oil Resistance: GREAT  
Aging Weather / Sunlight: FAIR

<<<< **RESISTANCE**

65 DUROMETER

Tensile Strength: 820 psi

Elongation Max: 200%

SURFACE: SMOOTH

NYLON INSERT FOR EXTRA STRENG<sup>T</sup>

Rubber Temperature: -20 F° to 170 F°

<<<< **TEMPERATURE**

\*\*\*Our rubber products are blended of various polymers formulated to meet stated physical specifications.

Recommendations made by American Material Supply in its product literature relating to applications of the rubber are believed to be reliable, but we make no warranty of results to be obtained since the conditions of the end application by Buyer and others are beyond American Material Supply's control.\*\*\*
