### Silicone Properties

Durometer: 60+/-5 Shore A

Tensile: 697 (psi) min

Elongation: 271% min

Specific Gravity: 1.38

Color: RED

Durometer: 60+/-5 Shore A

### Fiberglass Properties

Warp: 450 min

Fill: 300 min

Thickness: 0.013"

Pick and End Count: 28 x 20

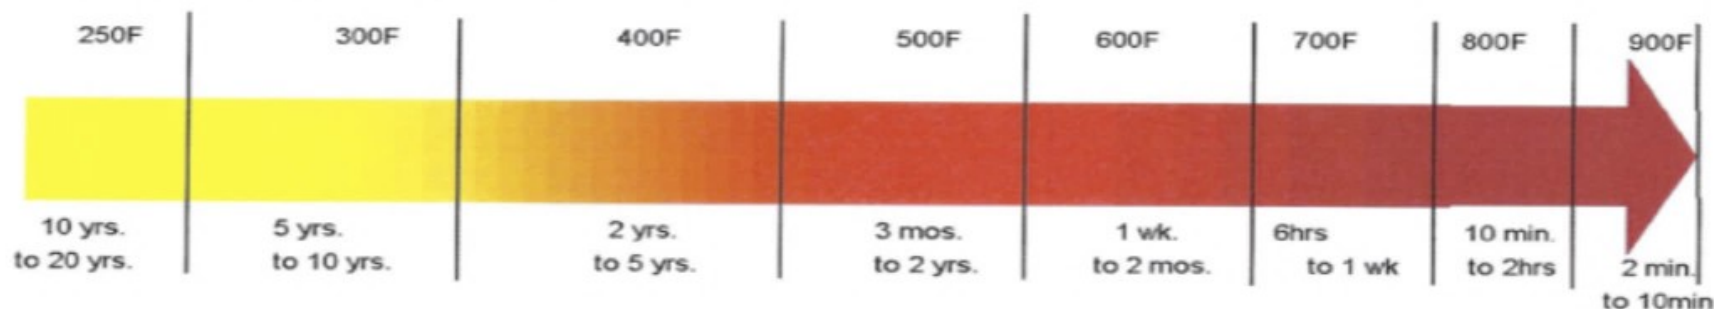

Finish: Smooth with talc

Temp Range: -80° to 400°F

\*Note: 1/4" has two plies of fiberglass

### Time/Temperature Resistance for Silicone Sheet

#### Temperature Degrees (Fahrenheit)
