

ALPINE BLONDES FACT SHEET

- A collection of 4 neutralising reflects; 12.11, 12.1, 12.2, 12.23 and 12.0S Booster and 12.0 when high % of greys present
- Did you know Alpine Blondes contain three times more toning capability than any level 10 colour
- For best results use LH Alpine Blonde 12 series on bases 6, 7 and 8
- Create perfect clean level 10 blonde blends
- Create subtle toffee tones on darker bases
- Contains Silk Renewal Complex (SIMULTANEOUS LIFT & DEPOSIT)

- Mix 1:2 for maximum toning plus lift
- Mix 1:3 for maximum lift (levels 5 and below)
- 12% for 4-5 levels of lift
- 9% for 3-4 levels of lift

- Add 25% 12.0S for extra lift with no interference to reflect
- 3% or 6% LH Developer may be used for maximum toning and less lift
*visual processing after 30 mins

- Texture of hair is paramount in level of lift expectation
- Consider underlying pigment when selecting reflect for maximum tone
- Illuminates may be added into mix by 10% for increased tonal value
