

You have the ability
SALON SUSTAINABILITY

We are a recycling program designed
for the Hair and Beauty industry to
make salon recycling simple

We make **recycling easier** across the entire industry - from freelancers, to small and medium sized salons right up to multi-salon groups.

We give salons the ability to easily recycle up to **95% of salon waste**. All of the below can be collected and recycled:

- >> Aluminium foils
- >> Colour tubes
- >> Hair
- >> Disposable towels
 - >> Plastic
 - >> Chemicals
 - >> Paper

Salon Sustainability also runs a **PPE Recovery program** to dispose of all PPE waste safely and responsibly including wax strips, couch roll and lateral flow tests.

#REHASH YOUR TRASH

PLASTIC

Plastics get turned into pellets and sold back to the plastics industry to manufacture new plastic products.

FOIL & METAL

Metal gets sorted by type, cleaned and reprocessed into aluminium ingots and made into items such as foil, cans, confectionery and wrapping paper.

CHEMICALS

All the water content – which could be up to 90 per cent – gets removed and the rest gets recycled or incinerated as part of a clean energy initiative.

PAPER

Cardboard and paper gets processed to remove the ink and then re-purposed as pulp to make more eco-friendly recycled paper goods.

TOWELS

Disposable options are hygienic but it's become an extra burden on waste. Salons can now send back their towels to be turned into compost.

HAIR

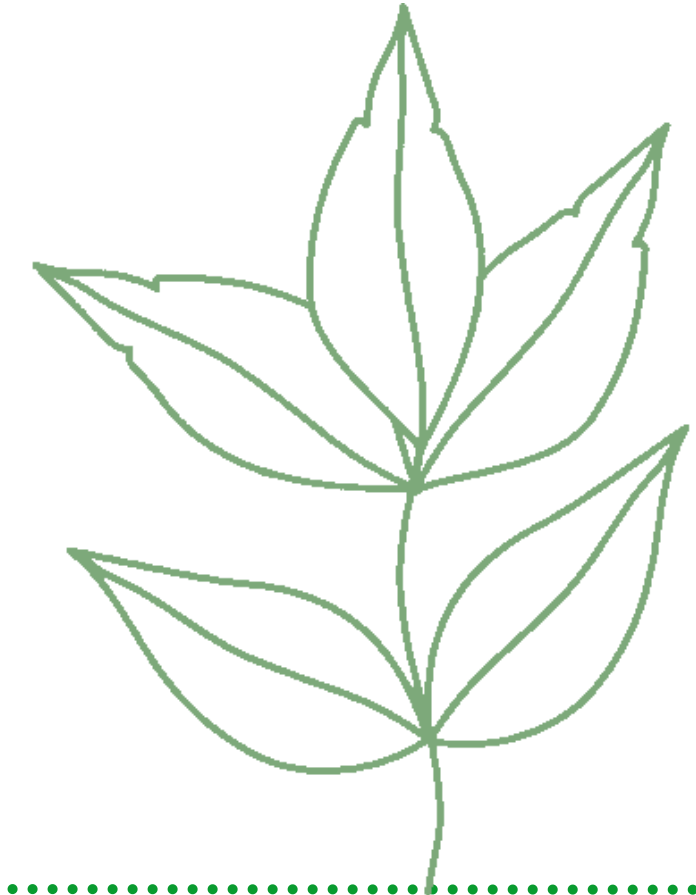

Salon Sustainability takes hair clippings and turns them into Hair Booms, which can clear up chemical and oil spills in our waters.

EACH BIN COSTS £40 (plus VAT)

Bins are clearly marked to make separating recycling easy - keeping your salon looking tidy while doing your bit for the planet.

You only need to buy your salon bins once. After that, we're a pay as go service or you can sign up to one of our bespoke packages.

Now that I've chosen my bins, what do I do?

» Our scheme works with a return box system. The box takes up just 400mm square of floor space and is 1 metre tall. When you empty your recycling bins, just make sure the waste is bagged up ready to be put into the return box.

- >> Mini Return box: £75 per box (+VAT)
- >> Big Return Box: £130 per box (+VAT)
- >> PPE box: £55 (+VAT)

A SOLUTION THAT DOESN'T COST THE EARTH

When your return box or PPE box is full, simply book a collection through our website and we will arrange a swift collection. Full return boxes are collected twice a week, which means you never have your waste hanging around.

WE ARE ALL RESPONSIBLE, SO LET'S SHARE THE COST

While many salon owners are taking small steps towards making a pledge for the planet, clients are increasingly expecting to see a far more ethical approach from the businesses where they shop and spend their cash.

Salon Sustainability provides mirror and window stickers to inform clients and guests that their salon is a certified Sustainable Salon and recycles up to 95% of its waste.

The extra cost of recycling can be incorporated into a price increase or by adding an optional sustainable fee of £1 to the client bill at the end of their visit.

WE ARE A CERTIFIED MEMBER OF SALON SUSTAINABILITY

Salon Sustainability is a comprehensive waste recovery programme designed to service the hair and beauty industry in the UK

We are able to recycle up to 95% of salon waste which includes aluminium foils, colour tubes, hair, plastic, paper, PPE and more

The waste from today's session goes to Enham Trust, a leading UK charity helping disabled people to live an independent life. Enham sort the waste prior to it going off to our specialist recycling partners.

What's more, 100% of all profit from recycling your waste goes directly to support the industry's charity, HABB (Hair & Beauty Benevolent)

Talk to your stylist to learn more about this programme!

SALON SUSTAINABILITY

LOOKING AFTER PEOPLE AND THE PLANET

Salon Sustainability works with charitable partner The Enham Trust so we can do our bit for more than just the planet. This social enterprise and leading disability charity benefits directly from our program through employment and helping people with disabilities to live a happy and independent life.

All salon orders are packed and dispatched by Enham Trust, while waste is transported to our recycling depot where it's checked and sorted before being sent to our specialist recyclers.

HOW WE WORK?

Being a partner of Salon Sustainability, your salon supports Enham Trust, a leading UK charity who benefits directly from our program through employment and helping people with disabilities to live a happy and independent life.

All salon orders are packed and dispatched by Enham Trust and all waste are transported to our recycling depot where it is checked, sorted before being sent to our specialist recyclers.

WE RECYCLE THE FOLLOWING

- CHEMICALS**
When the water has been separated it is purified and returned as mains water that will serve lots of purposes.
- HAIR**
We make hair booms, brushes and have them ready to use for oil and other chemical spills in harbours, rivers, industrial sites.
- FOIL & METAL**
Metal gets sorted by type (aluminium, steel), cleaned and reprocessed into aluminium ingots and sold on to make foil, cans, confectionery wrapping paper etc.
- PLASTIC**
Plastics get turned into pellets and sold back to the plastics industry to manufacture new plastic products.
- PAPER**
All our cardboard, paper gets processed and ink gets removed from the paper and is sold on as recycled pulp to make cardboard boxes, paper etc.

FAQ:

"How many return boxes will I need each month?"

>> When recycling hair, foils and metals, plastics, papers, disposable towels and chemicals we suggest allowing one return box per month for one full time stylist and colourist. When recycling the un-recyclable like hair, foils and metals and chemicals, we suggest allowing one return box per month between two full time stylists and colourists.

"Do I have to wash or clean my waste before I recycle it?"

>> Not at all. Not even your dirty foils. Simply put your waste in the relevant bins and our teams check and sort it ready for it to be recycled or re-purposed.

"Why choose Salon Sustainability?"

>> Salon Sustainability is a scheme created by hairdressers for hairdressers. We understand the unique needs of a salon and know that you need a solution that is as cost-effective, and convenient as possible. We make it effortless to be more eco-friendly.
