

WATER TECHNIX VIPER SUCTION CLEANER

The Water TechniX Viper is packed with the legendary features of the top shelf cleaners at a fraction of the price that's easy to install, use, and most of all will clean your pool in a breeze.

Features:

- Super user friendly. Install quickly and easily without tools in minutes
- Extra large deflector wheel so it won't get stuck in corners
- Full pool coverage, cleans floors, walls and waterline (will try the steps!)
- Includes 12 x 1m hose in sectional lengths (total of 12m)
- Robust hydraulic design with swivel hose connection to avoid tangles
- Male hose end: 36mm diameter, Female hose end: 38mm diameter
- Adjustable bypass valve regulates water flow to set optimum travel speed
- 30cm finned skirt for a super wide cleaning path for speedy efficiency
- Consumes no additional energy working when your pump is operational

- Compatible with salt, chlorine and magnesium pools
- Quiet diaphragm technology, don't put up with the 'clack' of traditional hammer-style cleaners
- Best suited for small and medium debris
- The deflector wheel enables smooth navigation around corners, steps and ladders
- Performs flawlessly with above ground and in ground pools, Rectangle, Oval or Free form
- Suits Concrete, Pebblecrete, Quartzon, Tile, Fibreglass and Vinyl surfaces
- Includes a spare cassette diaphragm for longevity

The Viper is the newest release in the growing Water TechniX clean category. A revamped body design ensures its hydraulically engineered with its sleek compact design and a whopping 12m of sectional hose, including a swivel connection so the hose won't tangle, enabling easy operation.

Its diaphragm function ensures optimum suction, along with its extra large deflector wheel stopping it from getting stuck in any of those troublesome corners. Compatible with salt, chlorine and magnesium pools.
