

GHURKA

2024 CORPORATE GIFTING CATALOG

HANDCRAFTED, HANDMADE AND DEVOTED TO THE HIGHEST OF STANDARDS, our story starts in 1975. Founded by Marley Hodgson and fueled by a love of history, our legacy is rich in tradition, with practices that have been passed down for generations. Our name honors the elite soldiers of the Himalayas, the Gurkhas, a fearless group of warriors, renowned for their bravery. They walked into the unknown and always emerged the victor. A reminder to always take that next step forward with courage.

Committed to creating heirloom-quality products, we make all our styles in small batches with artisans' hand piecing them together for ultimate durability and couture level construction. We say no to mass manufacturing and fast fashion. We don't believe in disposable trends or relationships. Supple, sturdy, and full of character, you can hit the ground running with Ghurka on your side.

Our Greatest Legacy

The past meets the present with our intricate tanning process which starts when we submerge our carefully sourced European hides in a proprietary blend of vegetable tanning formulas. This passed-down, old-world method is lengthy but worthwhile as it yields a leather of extreme durability and supple texture. Created from a mélange of tree bark, leaves and fruits, our natural formulation results in variations of grain character and hue, making each design unique and collectible. With time, our leather develops a rich patina, resulting in a beautiful gradient of color that tells the story of a life well lived. Ghurka is more than just a brand, it's an inheritance, with heirloom-quality designs that you will proudly pass on for generations.
