

### MATERIALS NEEDED

You will need the following materials:

- Black, grey and white felt
- Thread in black, grey and white
- Toy stuffing
- Needle
- A pair of safety eyes
- Scissors
- Pins
- Top stitch thread in black

### INSTRUCTIONS

**01** Using the templates, cut out all the pattern pieces in the corresponding colours.

**02** Taking one of the main body pieces, and using the picture as a guide, pin the black felt head piece in place.

**03** Using a small running stitch in matching thread, sew in place.

**04** Take the smaller white face and white tummy piece, and position with pins to hold in place.

**05** Using a running stitch in matching thread, sew both to the main body.

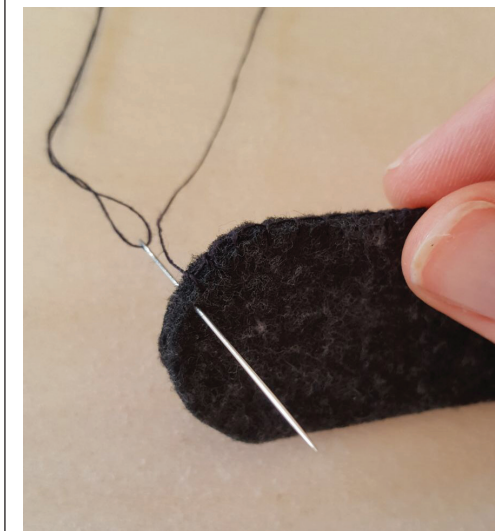

**06** Take the beak and use a couple of running stitches to fix in place.

**07** Make two small holes in the felt where the eyes will sit. It is easier to cut these with a scalpel knife, however you can use scissors instead. The holes should be just large enough that you can push the eyes through.

**08** Push the eye fronts through the holes.

**09** Attach the eye backs to secure in place, making sure they are pushed down as far as they will go.

**10** Next take two of the arm lengths and place together horizontally. Starting on the top edge, roughly 2.5cm from the end of the arm, sew a whip stitch around the edge.

**11** Continue around the arm until you are on the opposite side, stopping approx. 2cm from the end.

**12** Stuff the arm with toy padding.

**13** To seal the opening sew a running stitch diagonally from one side to the other. This should run from where you finished the whip stitch to where you started. This will leave a small flap, which will make it easier to attach to the body.

**14** Repeat for second arm.

**15** Take the two body pieces, and place wrong sides together. You may find it easier to pin them in place. The front of Polly Penguin should be facing you.

**16** Starting on the right hand side of the body, whip stitch around the outside using matching thread.

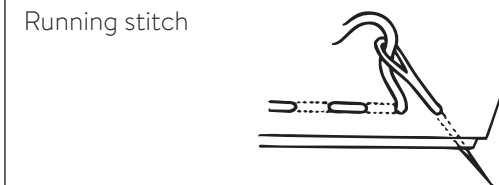

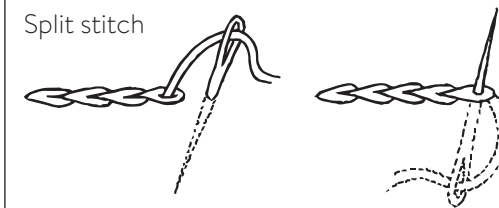

**17** Position the arms in place as you go, by inserting the flat base flap between the two body pieces.

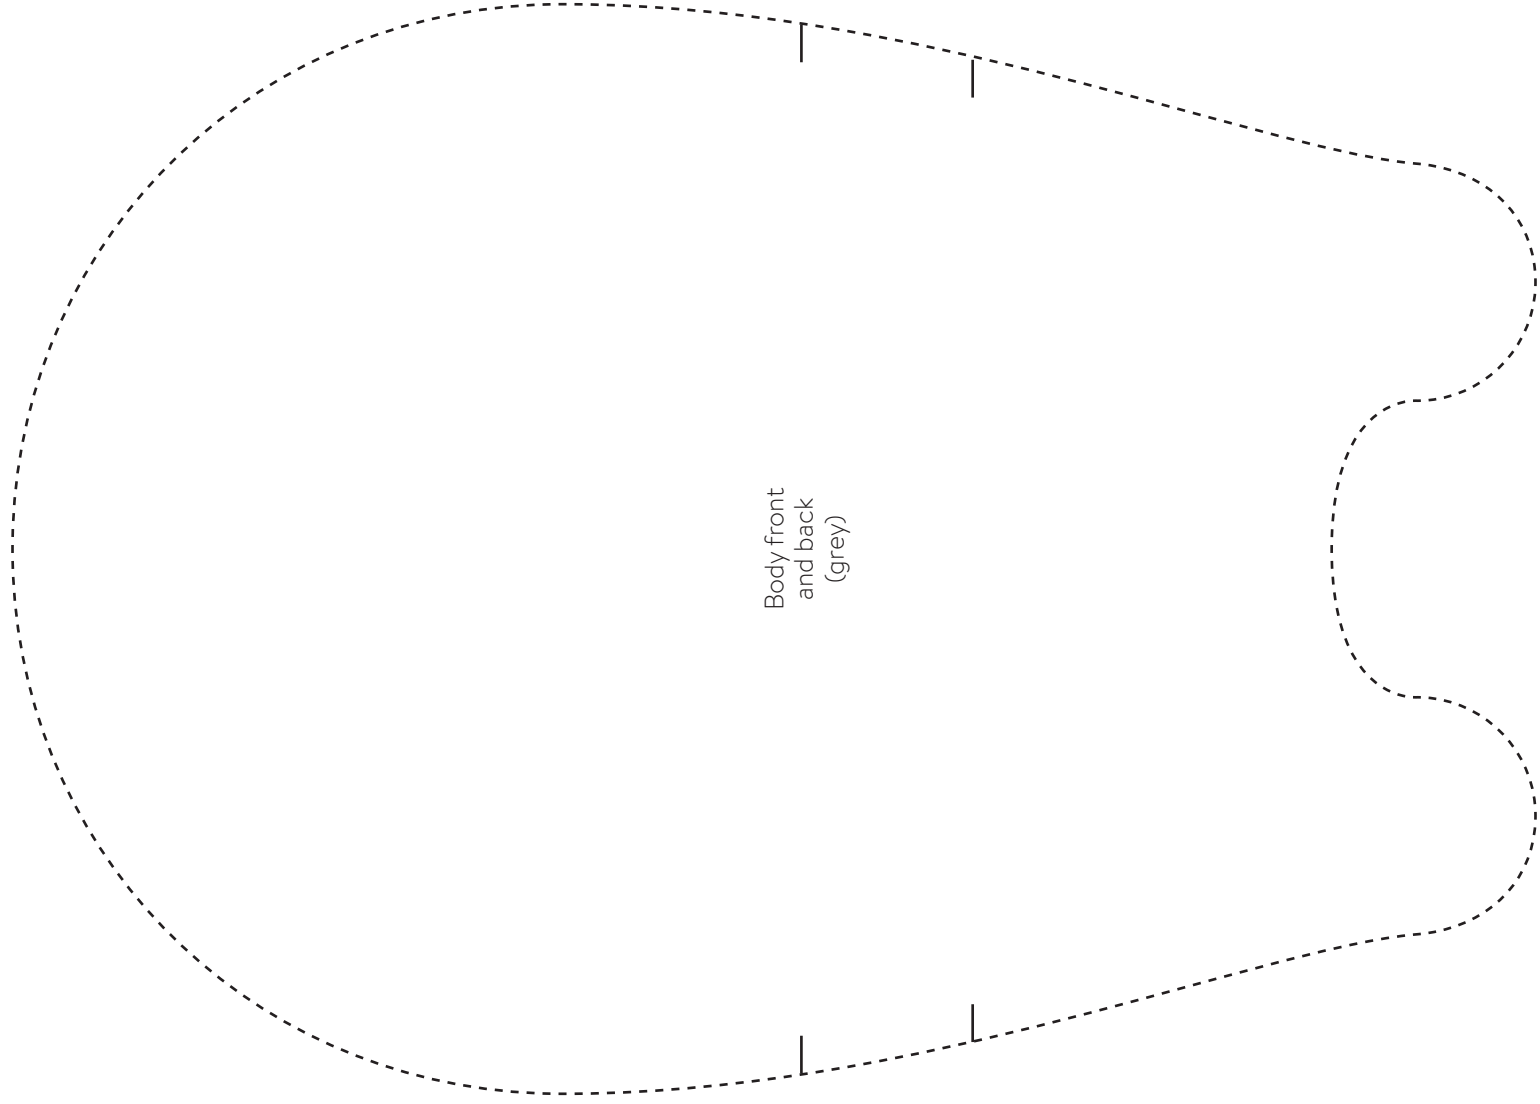

**18** With about 5cm left to sew, add the toy stuffing. Stuff firmly and ensure legs are also well padded.

**19** Insert the right hand arm and neatly stitch the gap closed.

**TEMPLATE GUIDE**

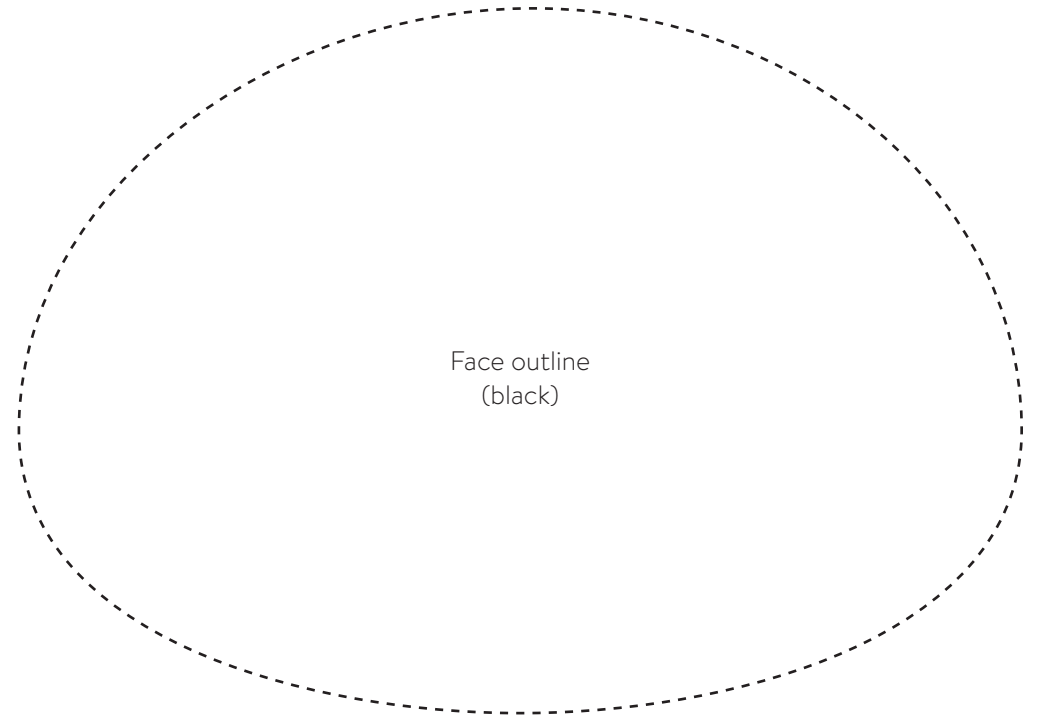

Cut out the individual shapes in their corresponding colours.

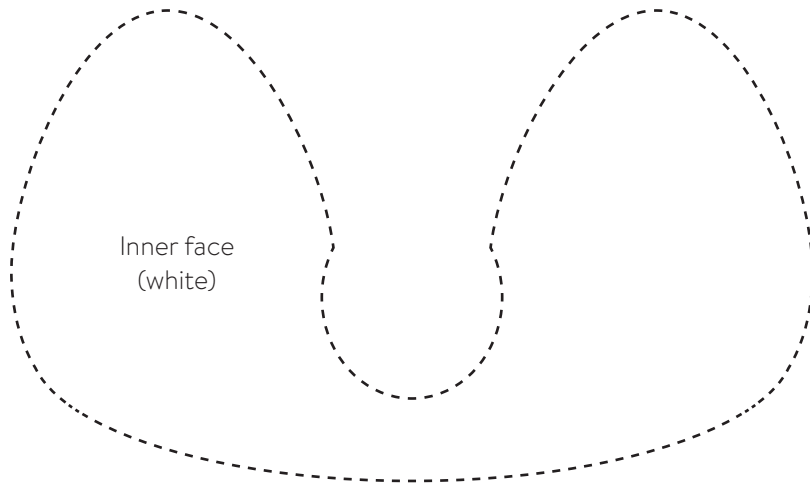

Body front  
and back  
(grey)

**TEMPLATE GUIDE**

Cut out the individual shapes in their corresponding colours.

Face outline
