# ORDERING PROCEDURES & POLICIES

## Office Hours

Our regular office hours are central time  
Monday through Saturday : 8:00am - 5:00pm

## Call Toll Free

Whether you would like to place an order, get technical help or check on the status of an order, please call us on our **toll free phone number 1-877-750-8040.**

## Fax Us Your Orders

Faxing orders allows you to place orders after hours, and allows us to see the order in writing, thereby ensuring accuracy. If we have a question about your order we will call you.

Please fax your order to: **1-630-620-7746**

## Payment Policy

We accept company checks, Visa, Mastercard or debit cards. We can keep your credit card number on file and either run it with every purchase or as requested.

Open account billing is available to those that can demonstrate a solid business history and pass a credit check. Mail or fax your credit application to the address listed on the application. Once we have received the completed application, approval should take no more than one week. Regular terms are net 21 days. All past due accounts are subject to interest charges of 2% per month. If your account is past due, your orders will be shipped COD until your account is current. A 1/3 surcharge of the balance outstanding will be added to the COD charge to go toward paying the outstanding overdue balance. If account goes to collection customer is responsible for all fees.

## Returned Checks

There will be a \$30.00 charge for each check returned from the bank as unpaid. If a customer repeatedly sends us a bad check the account will become "COD/cash only".

**MIDWEST CHIMNEY SUPPLY**  
To order please call 1-877-750-8040

# **ORDERING PROCEDURES & POLICIES**

## **Same Day Shipping**

As long as an order is received by 3:00 p.m. central time, we will always do our best to ship every in-stock order we receive the same day. This applies to UPS shippable orders only.

## **Free Shipping**

Free shipping is available on all orders over \$750.00. If an item is not in stock when you order it; we will ship it to you freight pre-paid when it arrives.

## **Returns**

Before you return products you MUST call for an authorization number. All returns must be in the original packaging and in new condition. Items must be returned freight prepaid. Products returned within 30 days of the invoice date will not be assessed a re-stocking fee. Products returned between 31-60 days will be subject to a 10% re-stocking fee. No returns will be allowed after 61 days. Please note that special order items and custom-made products are non-returnable.

## **Minimum Orders**

We have no minimum order or handling charge. We appreciate all orders, no matter what the size.

## **Damaged Shipments**

Thoroughly inspect all items before you sign the carrier's freight bill. If damage or shortage is noted, do not refuse the shipment. Note the damage or shortage on the freight bill and immediately file a claim with the carrier. If you need any assistance with filing the claim, please call us and we will be happy to assist you. Please note that our responsibility for the shipment ceases when the carrier accepts the shipment.

Prices are subject to change without prior notice.

M-FLEX 10"	50	57	63	68	72	76			
M-FLEX 11"		65	72	78	83	87	92		
M-FLEX 12"			79	86	93	99	102	106	

To use the chart above, the column on the left is the original size of the liner. The row at the top is the dimension that the liner is ovalized to and the number in the chart is the area of the ovalized liner in square inches.

The chart below shows the dimension that the liner would be when it is ovalized. The column on the left is the original size of the M-Flex liner, the row at the top is the dimension to which the liner is ovalized and the number in the chart is the dimension to which the liner widens.

Example: take an 8" M-Flex liner and ovalize it to 6". The new area of the liner is 45 square inches (from the chart above), the new width is 9.5" (from the chart below).

DIMENSIONS OF OVALIZED LINERS

### GENERAL VENTING REQUIREMENTS

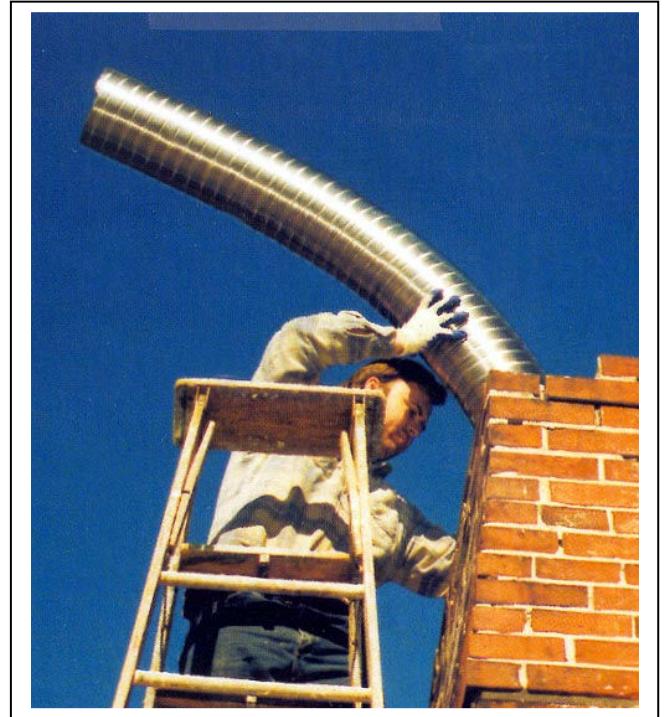

- 1) Flexi-liner systems are UL/ULC Listed for relining existing masonry or factory built chimneys and vents serving Category 1 natural gas or propane fired appliances.
- 2) Venting gas fired appliances into masonry chimneys is prohibited unless a "Listed" liner (i.e. Flexi-Liner) or a tile liner conforming to CODE is utilized. Oversized, misaligned and/or cracked tiles DO NOT constitute a "code" liner.
- 3) The air space around an installed Flexi-Liner System must not be used to vent other appliances.
- 4) Insulating of Flexi-Liner Systems is a benefit to the installation but not always essential to effective operation of this venting system. Consult the Flexi-Sleeve installation instructions for insulation guidelines.
- 5) A Flexi0Liner System venting more than one appliance shall not be smaller in diameter than the outlet of the largest appliance being serviced.
- 6) The Flexi-Liner System may be smaller in diameter than the outlet of the appliance being served provided:
  - a. The vent height is at least 10 feet
  - b. The liner size is not more than one size smaller
  - c. The "FAN MAX" is reduced by 10% if the appliance is "fan assisted"
  - d. The outlet is larger than 4" if the appliance is natural draft
- 7) If the vent system contains more than two 90° elbows, the maximum capacity shall be reduced by 10% for each additional 90° elbow or equivalent offset(s).
- 8) If the vent connectors are combined prior to entering the common vent, the maximum capacities listed for two or more appliances shall be reduced by 10%
- 9) The use of a "Y" fitting rather than a "T" fitting is recommended when common venting into a manifold system
- 10) AVOID CONDENSATION and/or SPILLAGE OF FLUE GASSES
  - i. Install Flexi-Liner as per installation instructions
  - ii. Setup appliances as per appliance installation instructions
- 11) Local authorities may over rule the foregoing

# M-FLEX 316L STAINLESS STEEL LINER

M-Flex liner is made from 316L stainless steel and is designed to reline existing chimneys or to be used in new construction. M-Flex liner is manufactured from the highest grade mill certified stainless steel alloy. It is made from a continuous strip of 7-ply stainless steel that is interlocked and crimped to produce a gas and watertight lining system of superior strength and durability. It's corrugated construction allows for expansion and contraction during heat up and cool down periods, removing any stress on the system.

## M-FLEX 316L STAINLESS STEEL LINER

SIZE	ITEM #	PRICE PER FOOT
M-FLEX 4"	CB4	\$ 9.00
M-FLEX 5"	CB5	\$ 10.00
M-FLEX 6"	CB6	\$ 11.25
M-FLEX 7"	CB7	\$ 12.95
M-FLEX 8"	CB8	\$ 16.00
M-FLEX 9"	CB9	\$ 21.75
M-FLEX 10"	CB10	\$ 23.00
M-FLEX 11"	CB11	\$ 26.75
M-FLEX 12"	CB12	\$ 30.25
Ovalizing	Oval	Additional \$2.50 per foot

- M-Flex is UL listed by Underwriter Laboratories to UL1777 standards for insulation. It is an all fuel liner and can be used for wood, coal, oil, corn and gas appliances.
- M-Flex has a lifetime transferrable warranty that is valid if properly maintained by a chimney professional.

# PREMIER INSULATION MATERIALS

## Premier Wrap Insulation

Premier Wrap Insulation provides the needed insulation for relining jobs when Premier Mix cannot be used. It is an 8 pound density ceramic blanket with a 4 mil foil backing and is 1/4" thick, which achieves a 1" clearance to combustibles. All wood, wood pellet and coal applications require insulation, while oil & gas appliances do not require insulation, although it is recommended.

<b>PREMIER WRAP INSULATION MATERIALS</b>			
DESCRIPTION	SIZE	ITEM #	PRICE
1/4" x 48" x 25' with foil	11"-14"	PW48	\$171.99

## Premier Mesh

Premier Mesh is used to protect the Premier Wrap Insulation, when installing the liner inside the flue. Available in small, large and extra-large sizes in 25' rolls

<b>PREMIER MESH</b>			
ITEM #	SIZE	FITS LINER SIZED	PRICE
PM6	12"	4" - 6"	\$ 22.99
PM79	15"	7" - 9"	\$ 30.99
PM1011	18"	10" - 12"	\$ 41.99

## Premier Mix Insulation

Premier Mix Insulation is a UL Listed (UL1777) ready mix vermiculite based masonry material containing no asbestos. It helps keep heat in and allows the flue to stay warmer, causing less creosote build-up and less condensation in gas and oil applications.

Each bag weighs 26lbs and will fill 2.2 cubic feet of space when mixed with approximately 2-4 gallons of water. When properly mixed, the mix should hold together in your hand when squeezed and no water should come out.

<b>PREMIER MIX</b>		
ITEM #	QUANTITY	PRICE
PRMIX	1 – 10 bags	\$17.29
PRMIX	11 – 29 bags	\$16.79
PRMIX	1 pallet 30 bags	\$15.89

# MAJESTIC CHIMNEY HOUSING

MAJESTIC CHIMNEY HOUSING			
DESCRIPTION	ITEM#	SIZE	PRICE
48" Simulated Brick Housing Tan	MAJ2424T	24" x 24"	\$122.99
48" Simulated Brick Housing Red	MAJ2424R	24" x 24"	\$122.99
48" Simulated Brick Housing White	MAJ2424W	24" x 24"	\$122.99
Gas Adapter Kit	TG2	-	\$62.99
Louvered Black Cover	SLTSK8	24" x 24"	\$165.10

Enjoy that distinctive brick look with this Simulated Brick Top Housing. This housing provides a realistic casement for a venting installation that mimics a brick chimney. Lower flashing is included to help keep out moisture and the upper baffle further ensures the integrity of the chimney-like terminus. Add that finished look for a traditional masonry chimney feel with this Simulated Brick Top Housing from majestic and create the perfect atmosphere for your customer's home.

- Simulated brick top housing for vent termination
- Simulated tan, red or white brick colored face
- Includes upper baffle and flashing for moisture protection
- Adds the finished look and accent that a traditional masonry chimney creates

# M-FLEX ALUMINUM LINER KITS

## M-FLEX ALUMINUM LINER KITS

Our M-Flex aluminum liner kits are manufactured for use with appliances with A.F.U.E. of 83% or lower.

Each aluminum kit comes professionally packed and includes:

- UL listed and tested 2 ply aluminum liner
- Aluminum mortar collar for slipping the liner through the thimble
- Aluminum top plate with a 16"x16" plate and a 2" high collar around the hole diameter
- Aluminum cap and installation instructions

All M-Flex aluminum liner kits are UL listed to UL441

# DRAFT ASSISTANCE ITEMS

## ENERVEX FANS (Exhausto)

Now you can offer the ultimate solution to fireplaces that have poor or insufficient draft. Enervex is the world's largest manufacturer of chimney top fans that are guaranteed to solve almost any smoke problem associated with fireplaces, stoves, BBQ's and more.

Designed to correct the majority of draft problems: whether related to the chimney design, the fireplace design, the building design or weather and wind. The Enervex Fan can be installed on brick chimneys, lined or unlined, as well as steel chimneys (single, double or triple wall insulated). The fan has a two year warranty against defects, a ten year warranty against corrosion and six month money-back guarantee.

## VACU-STACK

Vacu-Stack is the premier chimney cap for solving common wind-related chimney draft problems, as well as protecting the chimney from rain, snow, debris and animals. Vacu-Stacks are made from 26 gauge, 304 stainless steel and carry a lifetime warranty. They are available for masonry chimneys or air-cooled and air-insulated chimneys. A bird guard screen which fits all Vacu-Stack caps is available.

# HY-C GALVANIZED CAPS

## HY-C Single Flue Galvanized Cap

HY-C's Draft King galvanized cover offers a high resistant black powder-coated finish. The 25 gauge galvanized steel base is made of 18 gauge galvanized steel as is the 3/4" mesh lid. This cover is sturdier than other products in the market and is easily secured with the slotted head set screws. HY-C's design allows for optimal draft which is superior than other products on the market.

# HY-C COPPER CAPS

## HY-C Single Flue Copper Cap

The Draft King copper cover has a removable 24 gauge 100% copper lid which is characterized by nicely finished roll edges and scalloped corners. As time passes the coloration will resemble other copper finishing on the home. This 3/4" 18 gauge mesh is secured to this base. The stainless screws are also copper plated and have a slotted hex head. HY-C's design allows for an optimal draft, which is different from other products which may limit draft.

# HY-C STAINLESS STEEL CAPS

## SINGLE FLUE CAP

- 100% 304 stainless steel construction
- Lifetime warranty against rust
- Lower edge of mesh screen folds inwards to provide firm footing and prevent animals from crawling under the cap
- Additional holes in sides of base for increased mounting flexibility
- Outside mounting provides no draft restrictions
- 16 gauge steel base provides rigid foundation
- Rolled formed edge on lid eliminates sharp edges and presents a quality finish
- Optional flue legs available to convert cap to slip in when flue tile extends less than 1" above crown
- Unique feature with expanded metal mesh turned inward at base allows cover to rest firmly on tile, closing any opening around the tile

# LOCK-TOP DAMPER ACCESSORIES

**EASY GRIP HANDLES** - Make the Lock-Top Damper the easiest top mounting damper to open; a must for any customer who might experience difficulty in opening a damper.

**50' CABLE** - No need for connectors in the middle of the flue, for installation with chimneys up to 50' high.

**LOCK-TOP HARDWARE KIT**- Includes everything except the damper; cable, cap nut, spring loaded tube, cotter pin, handle, chain, bracket assembly, nail anchors and adhesive.

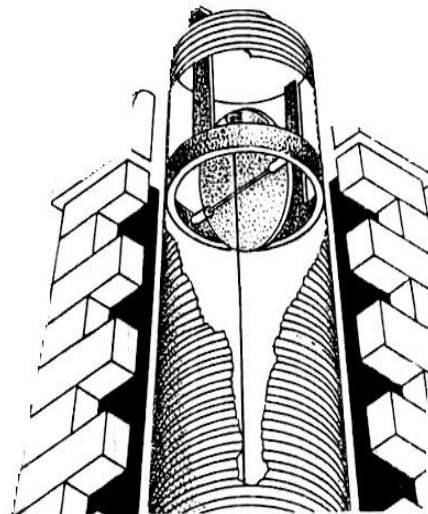

**RS ADAPTER** - Lets you mount the Lock-Top Damper to round flue tiles and solid-packed Class-A chimney.

## SPIDER™ TOP-DROP IN DAMPER

The recessed style of this replacement damper is very suitable where an exposed damper will get in the way during operation. It is appropriate for use not only in clay flue tile liners but also for round single wall Class A, solid packed and air insulated factory flues. A chimney cover can be easily installed over this damper.

# STANDARD FIREPLACE REPLACEMENT PANEL SETS

## FIREPLACE REPLACEMENT SCREENS INCLUDES TWO (2) SCREENS WITH PULL HANDLES

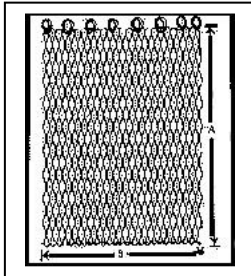

**Replace rusty, warped, unsafe,  
worn, sticking screens**

- Screen panels easily installed on existing fireplace enclosures
- Available in popular sizes to fit most fireplace openings
- Improve fireplace appearance and utility
- Reduce injury or accidents due to improperly fitting screens

### CONSTRUCTION FEATURES

- Built to last
- Heavy-duty wire woven into interlocking spiral panels
- Screen panels finished with rust preventative hi-temp black enamel
- Each panel is 24" in width and includes cool-grip screen pulls

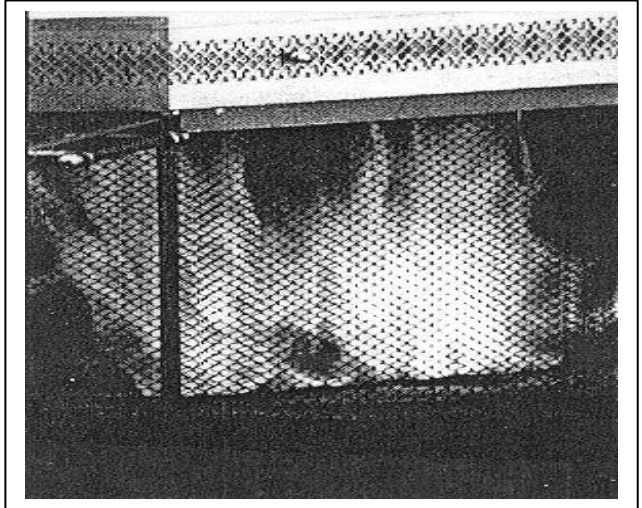

### MEASURING AND ORDERING INFORMATION

1. Measure height of present panels from top to bottom (measurement A).
2. Measure width of panel (measurement B). All replacement panels are 24" wide. If your panel is less than 24", the extra drape adds beauty and safety. For

panel widths over 24", call for custom order.

3. Panel height is in full inch increments. Order the panel height which is closest to your original panel height. Panels ordered longer than your panel height may drag on fireplace hearth. Check clearance before purchasing.

### REPLACEMENT MESH PACKETS

Kit includes 2 mesh panels, each 24" wide in the following heights:

Rings and black cod pulls included.

Note: Overall height is 1/2" higher than panel height listed.

BP30	\$ 289.99

**For a see-thru add an additional \$60.00 to the price.  
With safety pilot attached add an additional \$99.00 to the price.**

*The Elite design features dual burners on the grate, one in front and one midway back and a third lower deck burner to fire the ember bed. The result is the most realistic burn of any gas log system on the market. Master Flame logs are made from the same material as the Space Shuttle launch pad. This allows for superior heat output into the home.*

## FIREPLACE GLASS AND HEARTH CLEANER

Now.. with a thicker "Ultra-Cling" formula

Spray on and wipe off to easily remove creosote, soot and grime on fireplace enclosure doors and hearth. Safe, non-acidic ultra-cling formula sticks without running.

ITEM #	SIZE	PRICE (EACH)
82	1 Qt.	\$ 7.49

## BRICK AND STONE CLEANER

A safe concentrated cleaner to remove smoke residue, soot and creosote from masonry surfaces. Will not harm metal, glass or fiberglass. Contains an industrial strength solvent to dissolve build-up and a heavy-duty surface cleaner designed to penetrate and remove grime and greasy dirt. No dangerous acids.

ITEM #	SIZE	PRICE (EACH)
83	1 Pt.	\$ 6.39

## SPEEDY WHITE HEARTH AND STOVE CLEANER

- Excellent for removing stains from glass
- Can be used to clean brick and stone hearths
- Safe to use on grills, carpet, grease and other difficult household cleaning jobs
- Biodegradable, phosphate-free
- Available in 22oz. Containers

## STAINLESS STEEL CHIMNEY PAINT

Rutland Flat Black Stainless Steel Chimney Paint is a high quality, high temperature resistant silicone resin paint. Used without primer, it is formulated to renew and protect finishes on stainless steel chimney caps and pipes. This fast-drying formula resists peeling and blistering in temperatures up to 1200°F. Free of lead, fluorocarbons or vinyl chloride. May also be used on steel or cast iron stoves, grills, etc.

ITEM#	PRICE-12oz. CAN
304	\$ 7.69

## 1200°F STOVE PAINT

Here is a stove paint of the highest quality. It is a specially formulated flat black paint that resists peeling and blistering when subjected to temperature up to 1200°F. Renews and protects the finish on steel or cast iron stoves, ovens, grills and cookers. Non-graying and color-fast. It dries very quickly to an even flat black finish.

ITEM#	PRICE-16oz. CAN
80	\$ 7.49

# REPAIRS & MAINTENANCE

## MORTARS AND SEALANTS

### SOLAR SEAL/GUTTER SEAL

Forms a tough weather seal of Terpolymer Rubber Adhesive / Sealant. A superior multi-purpose polymeric sealant based on a tough exterior grade terpolymer elastomer that bonds tenaciously to most clean, dry and frost free exterior surfaces.

ITEM	ITEM#	PRICE
Solar Seal/Gutter	900E	\$ 5.99
Solar Seal-Case	900C	\$ 54.49
Gutter Seal-Case	400C	\$ 52.49

### NO. 4 BLACK ROOF CEMENT

An economical, long lasting asphalt cement for roofing repairs and installation work. Adheres tightly to metal and roofing materials for a water resistant seal. Use to apply roll roofing and to seal around flashing, ventilators, skylights, drain pipes, gutters and cornices. Meets ASTM D2822. Coverage: approx. 13 sq. ft. per gallon, 1/8" thick.

ITEM	ITEM #	PRICE
Single 10.3 container	51	\$ 3.79
Single 1 gal. can	54	\$ 11.49

### WET OR DRY ROOF PATCH

#### The Original No. 7 Cement

Can be used to stop leaks, even during heavy rain. A reinforced asphalt product that contains an additive to promote adhesion to wet surfaces. Trowel or brush on to displace water from roof surface. Meets ASTM D2822. Coverage: 12sq. ft. per gallon, 1/8" thick.

ITEM	ITEM #	PRICE
Single 10.3 container	510	\$ 3.89
Single 1 gal. can	561	\$ 11.49

# REPAIRS AND MAINTENANCE CEMENTS, MORTARS AND SEALANTS

## FIREPLACE MORTAR

This is our original fireplace mortar formulated especially to patch fireplace fireboxes. For bonding firebrick to firebrick. Fireplace mortar is a silicate product that when fire cured, sets rock hard - as strong as firebrick itself. Comes in a convenient cartridge for easy repointing of fireplace brick. Apply with caulking gun. Colors match most mortars. Withstands 2000°F. Not for exterior use. Passes ASTM E136 and E72. (Buff color)

SIZE	ITEM #	COLOR	PRICE
Single cartridge	63	Black	\$ 3.49
Case of 12	63-C	Black	\$ 37.69
Single cartridge	63B	Buff	\$ 3.49

Single cartridge	63G	Gray	\$ 3.49
Case of 12	63G-C	Gray	\$ 37.69

## 500°F HIGH HEAT SILICONE SEALANT

500°F heat resistant silicone sealant forms a tough rubbery adhesive seal that withstands 450°F continuously and 500°F intermittently. Uses include: sealing fireplace inserts, solar panel repairs, stoves, flashings – anywhere a permanent elastic seal is needed. Adheres to most materials. Meets ASTM C920-86.

SIZE	ITEM #	PRICE
Single cartridge	76C	\$ 8.49

## SILICONE SEALANT

### The Best High Temperature Sealant

Rutland 600° RTV Super Red high-heat silicone seal is a neutral cure (no odor) ultra-performance sealant. It forms a tough rubbery seal, and keeps its flexibility even in heat environments of up to 550°F continuous and 600°F intermittent. It will adhere to glass, metal, plastic, fiberglass, aluminum, wood, brick and slate. Greatly improved adhesion to masonry makes 600°RTV silicone Sealant the ideal choice on chimneys and flashings. The neutral cure feature prevents corrosion to copper or galvanized chimney flashings. Without harsh odor, it's the perfect choice for application in confined areas. Covers approximately 55 feet with a 3/16" bead per cartridge.

SIZE	ITEM #	PRICE
Single cartridge	76R	\$ 13.99

# REPAIRS AND MAINTENANCE CEMENTS AND MORTARS

## REFRACTORY CEMENT 611

- A ready-mixed high temperature silicate mortar for setting, coating, or resurfacing firebricks.
- Used when building fireplaces and fireboxes
- Withstands temperatures up to 2000°F
- Ideal high heat sealant for masonry to masonry joints under ¼" thick
- Available in 1 gallon containers

## CASTABLE REFRACTORY MORTAR

- Exceptional strength and abrasion resistance
- Use to cast your own firebrick
- Excellent for casting irregular or custom shapes
- 12.5 lbs. Cast a block 12" x 12" x 1¼" or 120lbs. /ft<sup>3</sup>
- Available in 12½ lb. container

## DRY MIX 211

- Used for joining flue tiles and building fireboxes
- Non-water soluble refractory mortar
- Meets NFPA 211 standards

ITEM	PART #	PRICE
Castable Refractory-12½ lb. Pail (each)	600	\$ 17.39
Refractory Cement – Gallon – Buff (each)	611	\$ 18.19
Dry mix 211 – 10 lb. Pail (each)	211	\$ 20.99
Furnace Cement – Black	65	\$ 11.49

## AHERNS® CHAMBER TECH™ 2000

- Outstanding smoke chamber parging mix
- 30lb. containers
- 1" layer of Chamber Tech is equivalent to 5" of brick masonry
- Can be built up to any thickness
- Adheres to any masonry surface

# VACUUMS & ACCESSORIES

## AUGUST WEST VACUUMS

### Soot Sweeper II

- High power dust collector
- Reliable- the industry standard
- Two year warranty on motor
- Light weight polyethylene tank
- Able to trap particles as small as .5 microns

### Turbo Sweeper

- Use to pick up heavy debris
- Great for cleaning off smoke shelf
- Weighs only 27 lbs
- 6 gallon polyethylene tank
- Two year warranty on motor

AUGUST WEST	ITEM #	PRICE
Soot Sweeper II	AWS-825	\$2109.99
TurboSweeper	AWS-700	\$ 969.99

- Two sizes available
- SSI filter- 26" high x 13" diameter, fits original Soot Sweeper
- SSII filter- 18" high x 14" diameter, fits Soot Sweeper II
