

NEW iRover²™ for Interactive Flat Panels
(IFP500 / IFP550 / FPE100)

Real
Classroom
Ready™

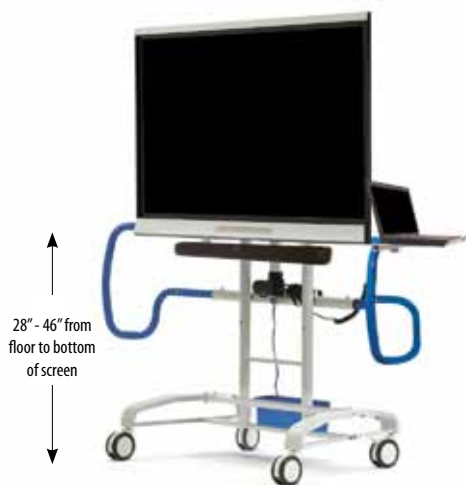

NEW Meet the iRover²™ family

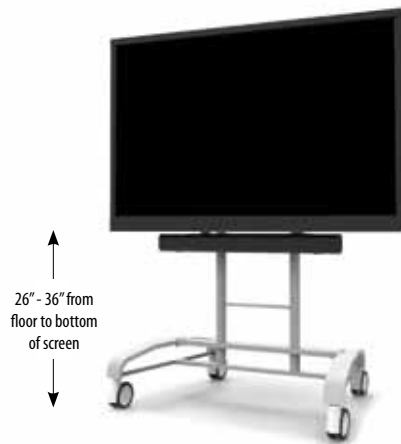

As education continues to focus on flexible learning spaces, classrooms and libraries are regularly rearranged to accommodate both full class instruction and small work groups. The iRover²™ family offers a range of rugged carts to move interactive flat panels anywhere learning takes place.

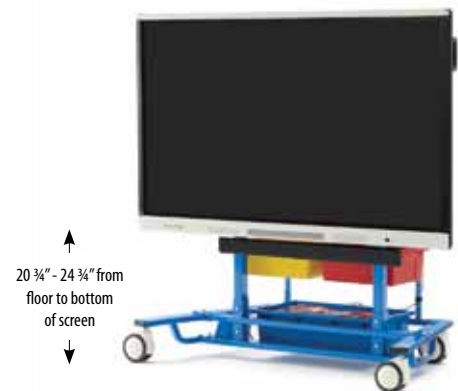

Three iRover²™ options to accommodate different grade levels and budgets!

iRover²™ Premium Model
Height adjustable with electric lift

NEW iRover²™ Base Model
Fixed height – 6 settings upon assembly

NEW iRover²™ Flat Panel Easel
for primary classrooms
Fixed height – 2 settings upon assembly

iRover²™ for Interactive Flat Panels

Designed with input from our Idea Lab educator advisory team, the iRover²™ family of carts offers durable and mobile options that allow teachers to move flat panels within their classroom or throughout a school.

Highlights

Mobile:

Mounting a flat panel to the wall can designate that as the front of the classroom, which limits the flexibility needed in today's learning spaces. The iRover²™ allows schools to move their flat panels within a classroom or from room-to-room.

Affordable:

With several price points, the iRover²™ family provides options for any budget. Its mobility allows the technology to be shared, ensuring that budgets can be freed-up and used towards purchasing tech devices and other tools.

Robust:

The iRover²™ family has been designed to ensure that your flat panel investment is securely protected even when on the move. All models are built with durable 5" casters.

What makes ours different from other flat panel carts?

- Specifically designed for rugged school environments
- Premium model has an electric lift function to adjust the flat panel height with a 17" range so the flat panel can be easily viewed by different grade levels (requires power)
- Premium model includes large ergonomic handles to aid mobility and protect the screen from bumps in transport
- Four 5" swivel casters to aid maneuverability (2 locking)
- Easel model is low to the ground to accommodate little learners and has ample storage

Premium model shown in lowest position with optional sound bar mount

iRover²TM Premium Model

iRover²TM Premium Model for Interactive Flat Panels (IFP500)

- Electric lift function to adjust the flat panel height with a 17" range so the flat panel can be easily viewed by different grade levels (requires power)
- Fits through standard sized doorways
- Laptop tray fits securely onto the arms and the back of the frame and can be stowed away during transport. Tray is suitable for all standard laptop sizes up to 17" (includes one laptop tray)
- One Small Open Tub
- 6 outlet power strip
- Hook and loop ties for cable management
- Supports 55" - 80" flat panels with a maximum weight of 200lbs
- Frame supports ease-of-access for all students, including those with special needs accommodations
- Handles can be removed for smaller spaces (laptop tray can mount to the back)
- Four 5" swivel casters to aid maneuverability (2 locking)

Additional accessory:

Sound bar mount (IFP-ACS2) can be mounted above or below the flat panel
Please note: this cannot be installed on previous iRover²TM models

Flat Panel Compatibility

Please check the IFP500 product page at copernicusused.com for the VESA mounting patterns and compatibility chart.

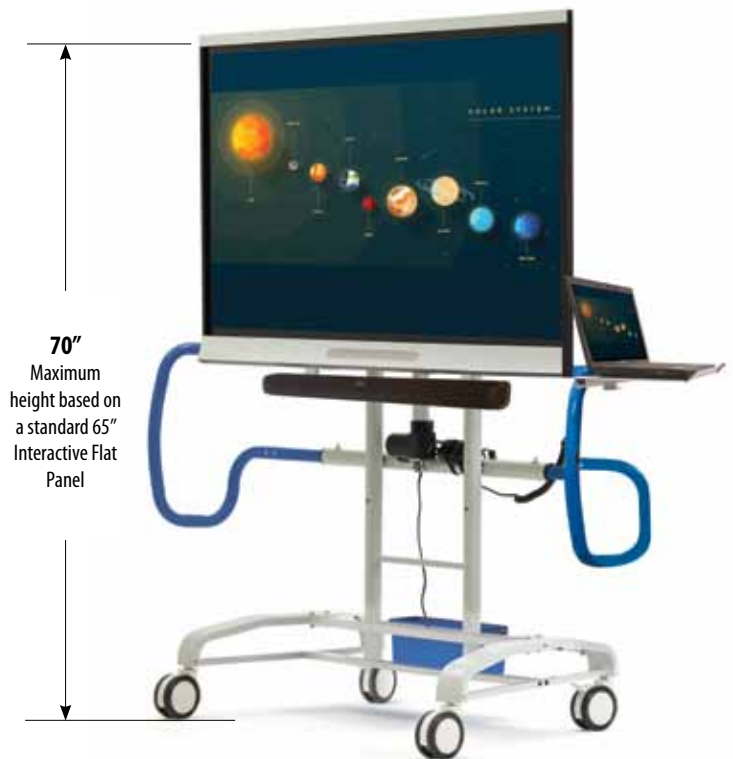

- Supports 55" - 80" flat panels with a maximum weight of 200lbs

Dimensions

60" - 77" H x 68 5/8" W x 31 1/2" D (excluding laptop tray)

Warranty

NEW iRover²™ Interactive Flat Panel Easel

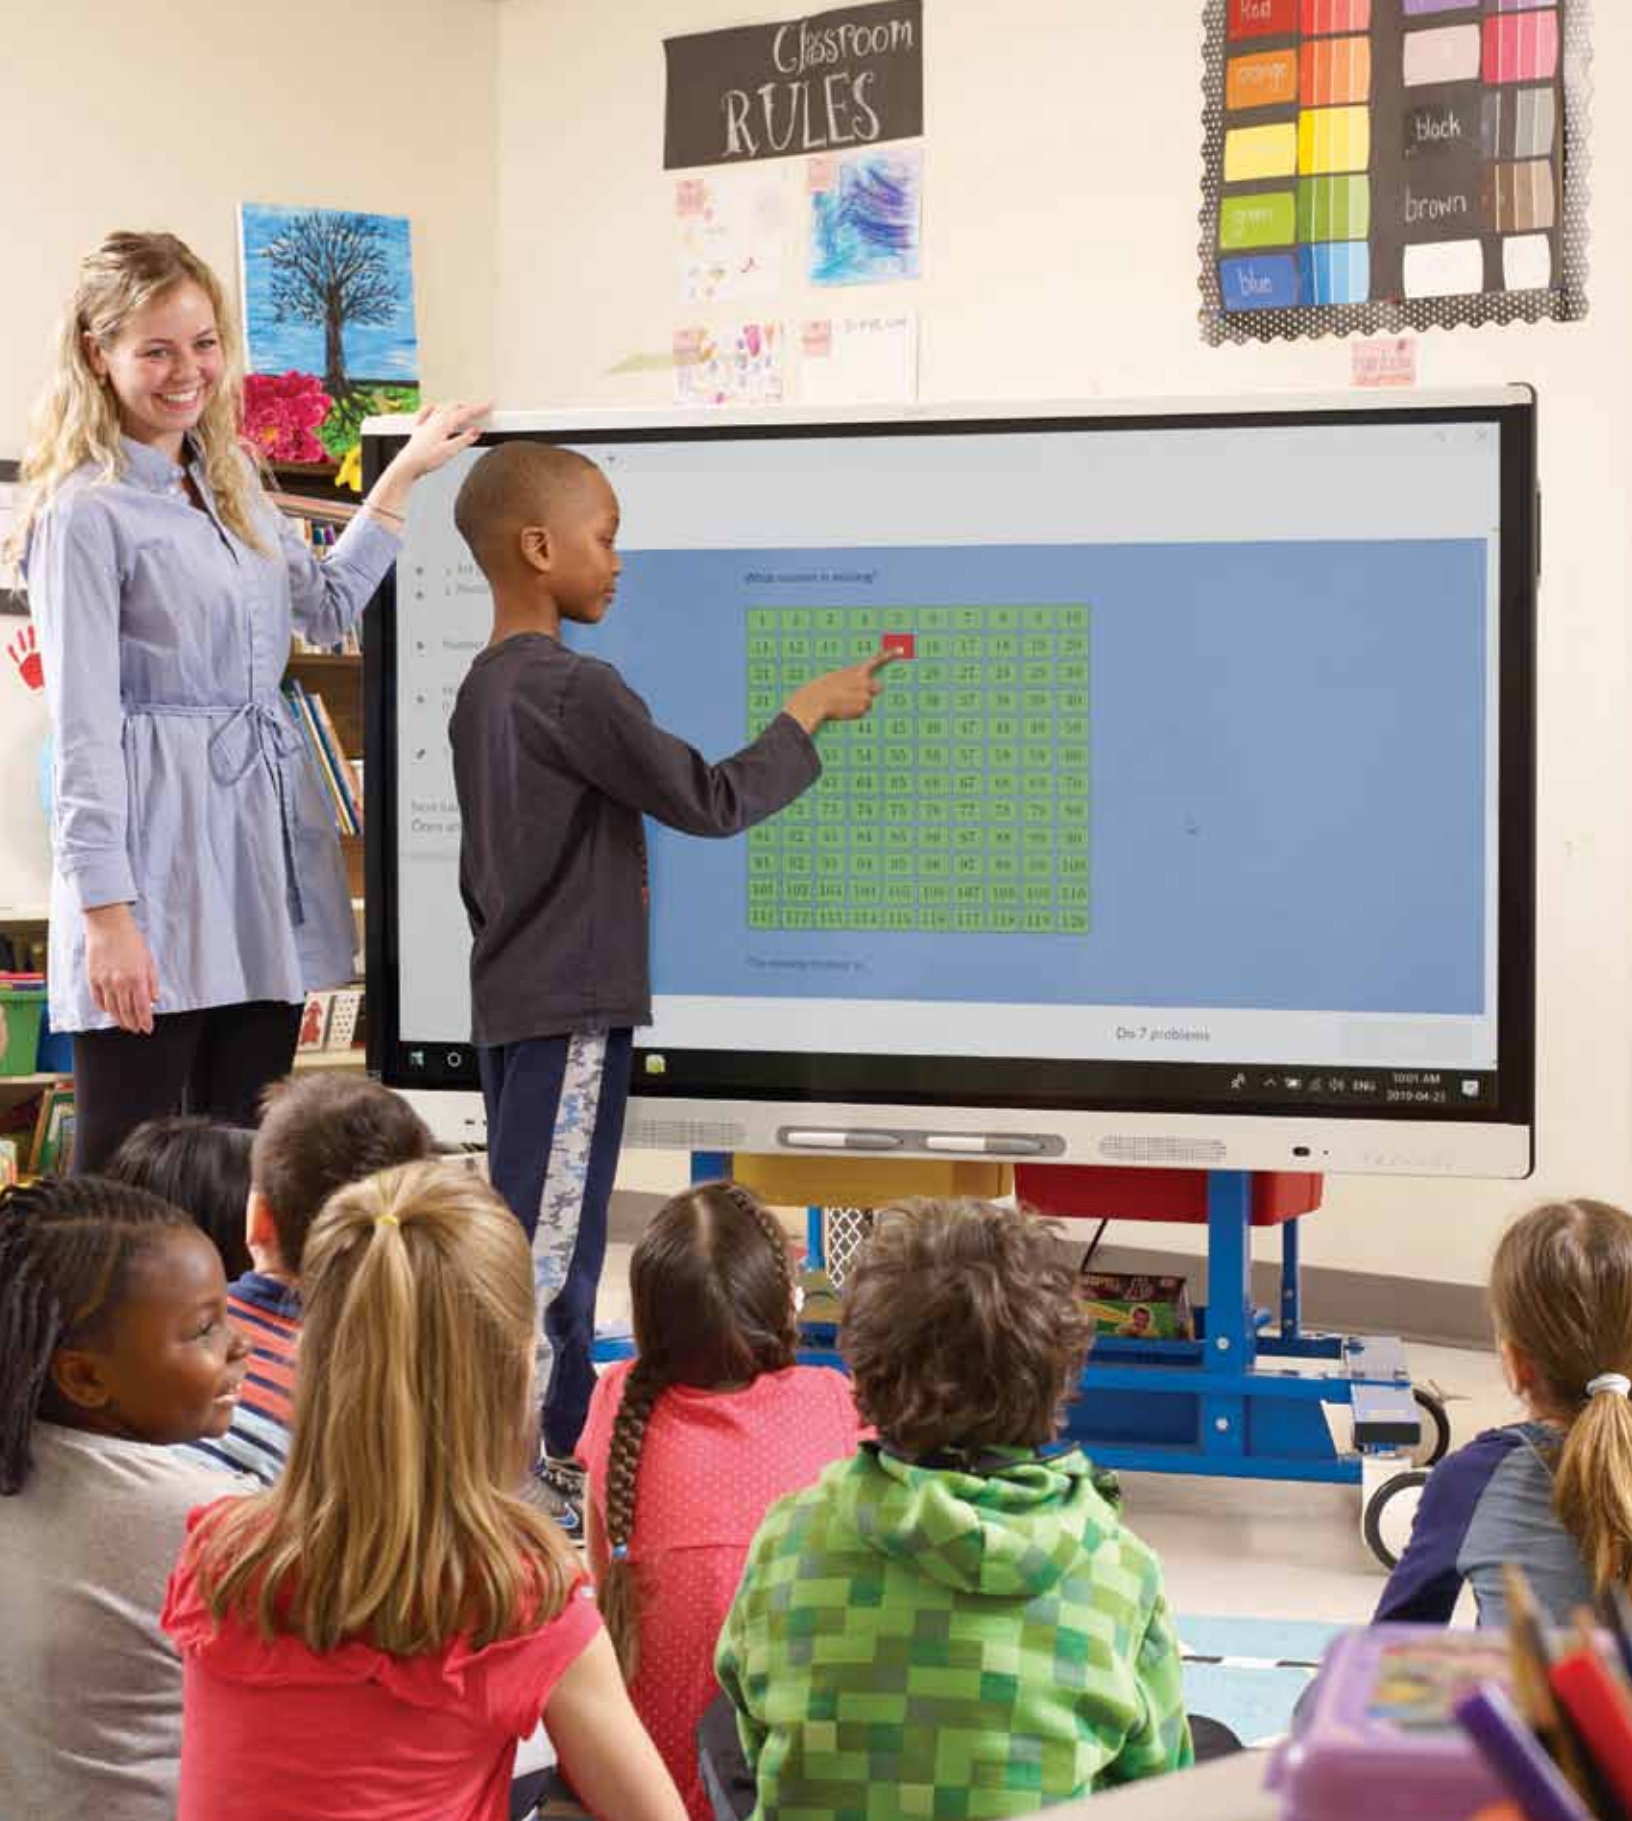

Designed for primary classrooms and combines a flat panel cart with useful storage.

Tub storage with safety stops

Tiny Tubs for flat panel remote and other small items

NEW iRover²™ Flat Panel Easel for primary classrooms

A new easel hybrid designed to be low to the ground for little learners and provide storage for just about anything!

NEW iRover²™ Flat Panel Easel

This new easel hybrid was designed for primary classroom environments. To maximize its footprint, it combines a durable flat panel cart with convenient storage often found in traditional teaching easels for manipulatives, books and other materials. The flat panel is low to the ground to accommodate little learners and students with special needs accommodation.

iRover²™ Interactive Flat Panel Easel (FPE100)

- Ideal for primary classrooms
- Two different heights upon assembly with 4" range
- Fits through standard sized doorways
- Loads of storage tubs with safety stops
 - 2 Stubby Tubbys
 - 4 Large Open Tubs
 - 1 Really Big Tub
 - 2 Tiny Tubs
- Large laptop shelf on the back
- 6 outlet power strip
- Cable hooks, and hook and loop ties for cable management
- Supports flat panels up to 65" with a maximum weight of 200lbs
- Frame supports ease-of-access for all students, including those with special needs accommodations
- Four 5" swivel casters to aid maneuverability (2 locking)

Additional accessory:

Sound bar mount (IFP-ACS2) can be installed above or below the flat panel

Flat Panel Compatibility

Please check the FPE100 product page at copernicused.com for the VESA mounting patterns and compatibility chart.

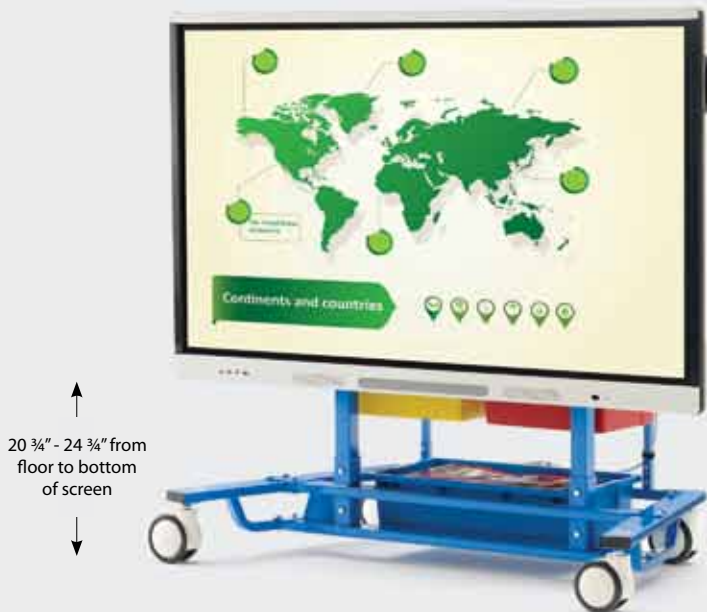

- Supports up to 65" flat panels with a maximum weight of 200lbs
