✓	<b>Indicates an upgrade or improvement over the model below</b>	

Featuring a lightweight custom butted frame with latest generation geometry, these bikes are the very definition of a contemporary Sports Hybrid - all the confidence and surefooted capability of our modern 29er hardtails, with the practicality of a trekking bike.

Our mudguard-compatible frames are designed to accommodate modern high volume tyres, feature our proprietary BBX internal cable routing and are loaded with unique design touches and British weatherproof features - such as the forward facing seat slot that stops water spray from the rear wheel getting into the frame.

Lightweight 1x11 speed transmission provides reliable sequential shifting simplicity and a wide gear range. Hydraulic disc brakes, puncture resistant tyres and a comfort-enhancing suspension fork complete the package and promise years of trouble free performance.

<b>Dropout Code</b>	DROPWHRC
