32c tyres on 21mm wide rims give the Carnaby both speed and comfort from the toughest urban commute to a open road adventure.

Based on our high performance mountain bike geometry, all our Fast Urban bikes have a long wheelbase and relaxed head angle for high speed stability, and a shorter stem for excellent slow speed manoeuvrability.

A custom rear dropout allows us to mount the rear hydraulic disc brake caliper inside the rear triangle for easy fitment of a rack or mudguards.
