Compact geometry means a reduced reach - ideal for smaller riders or those that prefer a more upright riding position. Lightweight 1x11 speed transmission provides reliable sequential shifting simplicity and a wide gear range.

A custom rear dropout mounts the hydraulic disc brake caliper inside the rear triangle clearing the way for a rack or mudguards and our new urban chain stays feature a useful kickstand mount.

Our shaped, butted and uniquely profiled rear stays give all our fast urban bikes a fantastically responsive and comfortable ride.
