

Whyte 146

New for 2011, and featuring our latest generation Trail Full Suspension, the 146 is designed and built to climb as well as it descends.

Full Carbon Construction with Trail geometry, 146 mm rear suspension travel with lifetime pivot bearings.

Additional contemporary design features include gravity dropper seat post, tapered headtube, new Maxle standard dropouts, 2 x 10 groupset, custom wheelset and press fit 30BB.

Two models will be available, as well as a frame only option.

146 S

Whyte 146

New for 2011, and featuring our latest generation Trail Full Suspension, the 146 is designed and built to climb as well as it descends.

Full Carbon Construction with Trail geometry, 146 mm rear suspension travel with lifetime pivot bearings.

Additional contemporary design features include gravity dropper seat post, tapered headtube, new Maxle standard dropouts, 2 x 10 groupset, custom wheelset and press fit 30BB.

Two models will be available, as well as a frame only option.

146 Works

Whyte T-120

Our new XC Trail Full Suspension platform. Featuring a carbon swingarm for low unsprung mass and outstanding rear wheel tracking, combined with an all new, aluminium main frame. The perfect combination of lightweight performance and reliability.

Additional contemporary design features also include gravity dropper seat post, tapered headtube, latest Maxle dropouts, 2 x 10 groupset and press fit 30BB.

One model will be available, as well as a frame only option.

T-120 S

Whyte Performance Carbon

Unique geometry combines with striking design to set our Performance Carbon hardtail frames apart from all others.

Last years 19 Carbon was described by What Mountain Bike Magazine as having "Race winning weight with a tough trail attitude. Probably the most enjoyable 20lb bike we've ever tested."

Four models will be available, as well as a frame only option. 100mm front fork.

19C

Whyte Performance Carbon

Unique geometry combines with striking design to set our Performance Carbon hardtail frames apart from all others.

Last years 19 Carbon was described by What Mountain Bike Magazine as having "Race winning weight with a tough trail attitude. Probably the most enjoyable 20lb bike we've ever tested."

Four models will be available, as well as a frame only option. 100mm front fork.

19CS

Whyte Performance Carbon

Unique geometry combines with striking design to set our Performance Carbon hardtail frames apart from all others.

Last years 19 Carbon was described by What Mountain Bike Magazine as having "Race winning weight with a tough trail attitude. Probably the most enjoyable 20lb bike we've ever tested."

Four models will be available, as well as a frame only option. 100mm front fork.

19C Team

Whyte Performance Carbon

Unique geometry combines with striking design to set our Performance Carbon hardtail frames apart from all others.

Last years 19 Carbon was described by What Mountain Bike Magazine as having "Race winning weight with a tough trail attitude. Probably the most enjoyable 20lb bike we've ever tested."

Four models will be available, as well as a frame only option. 100mm front fork.

19C Works XX

Whyte 19 Trail Ti.

No other material rides like titanium. And no other titanium rides like a Whyte.

The 19 Ti is an alluring blend of elegant design, outstanding craftsmanship, and our award-winning geometry. Add that to the unique contemporary frameset with our custom stays and dropouts and you'll see why MBR magazine said "Whyte has really raised the bar with this bike. Their Ti offering is sheer class."

One model will be available, as well as a frame only option. 120mm front fork.

19 Trail Ti

Whyte 19 Trail Steel

Using the geometry and tubing profiles we developed for the 19 Ti and constructed from British made Reynolds 631 air hardened steel, the 19 Trail Steel provides the ideal combination of traditional steel and contemporary design.

One model will be available, as well as a frame only option. 120mm front fork.

19 Trail Steel

Whyte 19 Trail Alloy

The 19 Trail Alloy is the UK's most versatile Hardtail - it's light enough to race and tough enough for trails. Our unique rear dropout allows geometry adjustment and easy transformation to a single speed setup.

Awarded the Singletrack Editors Choice last year, the reviewer said "If I had to choose the fabled one-bike-for-everything, it would be the Whyte 19"

One model will be available, as well as a frame only option.
120mm front fork.

19 Trail Alloy

Whyte 900 Series

Using trail geometry developed for the 19, both the 905 and 901 offer no compromise performance and sublime handling. In a recent test of the 905, What Mountain Bike Magazine said "it's sharp yet smooth.... a superb blend of race speed and technical confidence", giving it an Editor's Choice and a Gold Award.

Two models will be available. 120mm front fork.

901

Whyte 900 Series

Using trail geometry developed for the 19, both the 905 and 901 offer no compromise performance and sublime handling. In a recent test of the 905, What Mountain Bike Magazine said "it's sharp yet smooth.... a superb blend of race speed and technical confidence", giving it an Editor's Choice and a Gold Award.

Two models will be available. 120mm front fork.

905

Whyte X8 Series

A new category for 2011, the X8 series offers a perfect introduction to Whyte hardtails. Once again using the DNA from the Whyte 19 Ti tubeset, the X8 series is constructed from high grade butted aluminium and features similar performance geometry to the Carbon hardtails.

Two models will be available. 100mm front fork.

805

Whyte X8 Series

A new category for 2011, the X8 series offers a perfect introduction to Whyte hardtails. Once again using the DNA from the Whyte 19 Ti tubeset, the X8 series is constructed from high grade butted aluminium and features similar performance geometry to the Carbon hardtails.

Two models will be available. 100mm front fork.

809

Whyte R7 Fast Urban Series

Whyte have defined a new category, combining the best elements of an Urban MTB, the power delivery of a road bike and the design flair of a single speed.

Our unique geometry balances precise steering control with stability - a perfect combination for life in the fast lane.

Four models will be available.

Portobello

Whyte R7 Fast Urban Series

Whyte have defined a new category, combining the best elements of an Urban MTB, the power delivery of a road bike and the design flair of a single speed.

Our unique geometry balances precise steering control with stability - a perfect combination for life in the fast lane.
