

HealthCare mattresses

HealthCare foam mattresses are for excess moisture issues. Features a Polyester reinforced PVC (vinyl) cover that is sewn closed and supportive foam core. The foam is 1.8 pound density non-allergenic polyurethane foam, providing a medium firm sleep surface. The cover material is a wipeable premium PVC healthcare material. PVC is waterproof to stop liquids from getting inside the mattress. Extra care is needed to maintain the barrier stopping moisture penetration including rinsing the cover with fresh water to remove the chemicals used to clean.

Available sizes (each 7" thick)
