A-C

- about**, acerca de, aproximadamente
- above**, por encima de, mayor a
- accurate**, correcto, exacto
- acute angle**, ángulo agudo
- acute triangle**, triángulo acutángulo, triángulo agudo
- add**, sumar
- addend**, sumando
- addition**, suma, adición
- after**, después de
- afternoon**, tarde
- alike**, semejante
- all**, todo(s), toda(s)
- all together**, todo(s) junto(s), toda(s) junta(s)
- almost**, casi, aproximadamente
- amount**, cantidad
- analog clock**, reloj analógico
- angle**, ángulo
- answer**, respuesta
- ante meridian (a.m.)**, antemeridiano (a.m.)
- application**, aplicación
- area**, área
- arithmetic expression**, ex
- arrange**, agrupar
- as long as**, siempre y cuando
- associative property**, propiedad'
- at least**, al menos, como menos
- at most**, como máximo
- autumn (fall)**, otoño
- average**, promedio
- axis (pl. axes)**, eje (pl. ejes)
- bar graph**, gráfico de barras

3 Grade Levels

■ **Elementary (3-5)**

■ **Jr./Middle School (6-8)**

■ **High School (9-12)**

- classify triangles**, clasific
- closed figure**, figura cerrad
- coin**, moneda
- collection**, colección
- common denominator**, denominador común
- common factor**, factor común
- common multiple**, múltiplo común
- commutative property of addition**, propie-
- commutative property of multiplication**, propieda
- compare numbers**, comparar números
- compatible numbers**, números compatibles
- compensation**, compensación
- cone**, cono
- congruent triangles**, triángulos cor,
- connect**, conectar
- consecutive angles**, ¿
- construct**, cons
- coordinate**, coo
- coo**, **grid**
- corn**
- count**

- cup**, taza
- customary measurement system**, sistema anglosajón de medidas
- customary units of measure**, unidades de medidas anglosajonas

D-F

- day**, día
- decagon**, decágono
- decimal fraction**, fracción decimal
- decimal number**, número decimal
- decimal point**, punto, coma decimal

- equivalent fractions**, fracciones equivalentes
- equivalent ratios**, razones equivalentes
- error**, error
- estimate**, calcular aproximadamente
- estimation**, cálculo aproximado
- even number**, número par
- evening**, noche
- event**, evento
- examine**, examinar
- example**, ejemplo
- extend a pattern**, extender, continuar un patrón
- extended fact**, operación extendida de núme-
- face**, cara
- face of a figure**, hacer frente, encarar
- factor**, factor, descomponer en factores
- fair share**, porción debida
- false**, falso
- feet**, pies
- fewer than**, menos que
- first**, primero
- flip**, rotar sobre un eje
- foot (ft)**, pie
- fraction**, fracción
- front-end estimation**, cálculo aproximado a partir de los primeros dígitos

G-I

- gallon (gal)**, galón (gal)
- geometric pattern**, patrón geométrico
- geometric solid**, sólido geométrico
- gram (g)**, gramo (g)
- graph**, gráfico
- group**, grupo
- highest common factor**, máximo común divisor
- half (pl. halves)**, medio, mitad (pl. medios, mitades)
- half**, medio
- heavier**, más pesado
- hour**, hora
- hour hand**, manecillas de la hora
- icosahedron**, icosaedro

 Item #: SPAN 6-8 M

A-C

- absolute value, valor absoluto
- accuracy, exactitud
- additive inverse, inverso aditivo
- adjacent, adyacente
- adjacent angles, ángulos adyacentes
- adjacent sides, lados adyacentes
- algebra, álgebra
- algebraic equation, ecuación algebraica
- algebraic representation, representación algebraica
- algebraically, algebraicamente
- alternate exterior angles, ángulos alternos externos
- alternate interior angles, ángulos alternos internos
- altitude, altura
- angle bisector, bisectriz de un ángulo
- angle pairs, pares de ángulos
- annual, anual
- apex, vértice
- approximation, aproximación
- arc, arco
- arithmetic sequence, sec
- arrangement, disposición, a
- array, matriz
- arrow, flecha
- associative property of addition, propiedad asociativa de la suma
- associative property of multiplication, propiedad asociativa de la multiplicación
- assume, suponer
- attri
- axis

- composite number, número
- compound events, eventos
- compound interest, inter
- compute, calcular
- concurrent, concurrente
- congruence, congruencia
- conjecture, conjetura
- consecutive integers, números consecutivos
- consolidate, consolidar
- constraint, límites
- construction, construcción
- convert, convertir
- coordinate geometry, geometría de coordenadas
- coordinate plane, plano de coordenadas
- corresponding angles, ángulos correspondientes
- corresponding sides, lados correspondientes
- cost, costo
- counterclockwise, en sentido contrario a las manecillas del reloj
- Coulomb's Law, Ley de Coulomb
- credit, crédito
- cube, cubo
- cubic, cúbico

- customary units of capacity, unidades de capacidad anglosajonas
- customary units of mass, unidades de masa anglosajonas

D-F

- data, datos
- data frequency table, tabla de frecuencia de datos
- decline, declinar
- degree measure, medida de grados
- degree of a monomial, grado de un monomio
- degree of a polynomial, grado de un polinomio

- equation of a line, ecuación de la recta
- equiangular, equiangular
- equidistant, equidistante
- equivalent equations, ecuaciones equivalentes
- evaluate, evaluar
- exceed, exceder
- exception, excepción
- exchange rate, tasa de cambio
- exclude, excluir
- exponential function, función exponencial
- exponential growth, crecimiento exponencial
- exponential notation, notación exponencial
- expression, expresión
- exterior angle, ángulo exterior
- extremes, extremos
- factor completely, factorizar completamente
- factor tree, árbol de factores
- factorial, factorial
- factorization, factorización
- favorable outcome, resultado favorable
- formula, fórmula
- frequency distribution, distribución de frecuencia
- frequency table, tabla de frecuencia
- function, función
- function notation, notación de función
- Fundamental Counting Principle, principio fundamental de conteo

G-I

- geometry, geometría
- metric, métrica

My Academic Vocabulary Journal

6 Step Academic Vocabulary Organizer Explained

ENGAGE WITH CONTENT

Students identify academic term.

Activity 1

Students write textbook or teacher explanation of the term.

Activity 2

Students begin thinking and referencing prior knowledge related to this concept.

Word
common denominator

Subject: Math Date: 2/9/17
What I heard:
A denominator of 2 or more fractions must be equal to perform addition, subtraction, or to compare fractions.

What I think the word means:
Same number on bottom to plus or minus fractions.

My drawing/graphic/symbol of the word:
Find common denominators
$$2x \frac{3}{4} + \frac{1}{8} = ?$$

$$\frac{6}{8} + \frac{1}{8} = \frac{7}{8}$$

Activity 3

Students develop a graphic representation of the concept.

EXPLAIN REASONING

Activity 4

Students refine their understanding by identifying opposing definitions or ideas.

What I think the opposite/non-example of the word is:
different denominators
NOT $\frac{5}{13} + \frac{6}{15} = \frac{11}{15}$

Activity 5

Promotes academic language discussion, and helps students to verbalize before they write.

What characteristics of the word did I learn from my discussion:
In order to add or subtract fractions, you must have common denominators.

INITIATE ACADEMIC DISCUSSION

Activity 6

Engages students in interactive demonstration of understanding.

A sentence describing what I learned after the group activity/game using this word:
if denominators are not the same, we could make them common denominators by multiplying.

Self Assessment:

I can define the word in English and use it correctly.	<input checked="" type="checkbox"/>
I can use the word but can NOT define it in English.	<input type="checkbox"/>
I know the word in English but can NOT use the word.	<input type="checkbox"/>
I'm still confused! HELP!	<input type="checkbox"/>

ASSESS UNDERSTANDING

Allows students to self-evaluate and help teachers know if the issue is language or content.
