

HMK® P319

Marble and Granite Polish

Conditioner for all fine-honed and polished natural and artificial stone surfaces. Gives floors a brilliant shine and reduces the penetration of dirt and water. For interior use only.

HMK® P319 is a concentrated wax based conditioner and maintenance cleaner/polish/protector for interior use on all polished and fine honed natural and artificial stone floors, walls, and stairways. HMK® P319 enhances the stone's color and texture, creates a brilliant shine, and further protects against dirt and water infiltration. HMK® P319 is recommended for countertops, shower walls, and fireplaces. It also protects impregnators and sealers and does not smear or scuff. Regular use reduces the visibility of marks caused by everyday wear.

Important: Clean surface thoroughly before treatment using HMK® R155 Intensive Cleaner (diluted) followed by a flood rinse with water before applying. If under floor heating exists, switch it off and allow the surface to cool to room temperature.

Instructions: Shake well before use. Apply for the first time diluted 1:20 with warm water. Apply a thin and even layer using a soft white cloth, sponge, or flat wash mop and massage gently into the surface. Allow to dry and then buff by hand with a soft cloth, by machine with a lambs wool bonnet, or a floor machine (175-1500 RPM with a lambswool pad).

Do not walk on the treated surface until completely dry, around one hour. The shine is maintained by occasionally adding 1 cup of HMK® P319 for every gallon of warm water and buffing the surface again once dry. For periodic refreshing of the surface use HMK® R155 Intensive Cleaner to remove old HMK® P319. For regular cleaning and continued protection use HMK® P324 Liquid Stone Soap, a no-rinse natural product.

Coverage: About 1600 - 2700 square feet per liter.

Warning: Chemical product. Keep out of reach of children. Do not use the product in temperatures below 50°F and above 80°F.

Packaging: 12 x 1L bottles per box; 2 x 5L bottles per box

Storage: Store in a cool place but keep safe from frost.

Testing: Always test the product in an inconspicuous area to evaluate suitability, coverage and performance.

Limitation of liability: The liability of HMK® Moeller Stone Care and/or ACI International for defective products and any claims for damages whatsoever is limited to the purchase price of the products. HMK® Moeller Stone Care and/or ACI International shall not be liable for any consequential damages. No other warranty or representation is made or implied.
