

HMK® P321 Polishing Paste

**For refurbishing small surfaces.
Ideal maintenance polish for vanity tops,
kitchen and bar countertops, tables, and other small
natural and artificial stone surfaces.
For interior use only.**

HMK® P321 is a ready to use polishing and cleaning paste for use on all polished natural and artificial stones. HMK® P321 is great for covering up light etch marks and cleaning countertops, vanity tops, bar tops, windowsills, fireplaces, art objects, etc. Repeated use enhances the stone's color and texture, and protects against dirt and water infiltration. HMK® P321 Polishing Paste is UV resistant, does not yellow or cloud over time, and protects impregnators and sealers.

Instructions: Apply a thin coat in a circular motion on a clean and dry surface using a white cotton lint-free cloth and then buff using a separate cloth or a machine fitted with a lambswool bonnet. Continue buffing until paste is completely removed. Do not allow paste to dry on the surface. HMK® P321 will not smear or build up and can be applied over itself. To remove, use HMK® R155 Intensive Cleaner. For regular cleaning and continued protection use HMK® P324 Liquid Stone Soap, a no-rinse natural product.

Coverage: About 80 to 110 square feet per 1/2 liter tin.

Warning: Chemical product. Keep out of the reach of children. Do not use the product in temperatures below 50 and above 80°F.

Packaging: 60 x 3.3-oz tubes per box; 12 x .5L tins per box.

Storage: Store in a cool place but keep safe from frost.

Testing: Always test the product in an inconspicuous area to evaluate suitability, coverage and performance.

Limitation of liability: The liability of HMK® Moeller Stone Care and/or ACI International for defective products and any claims for damages whatsoever is limited to the purchase price of the products. HMK® Moeller Stone Care and/or ACI International shall not be liable for any consequential damages. No other warranty or representation is made or implied.
