

walkntalk – 2 YEAR WARRANTY

WalknTalk will replace the faulty product at no cost to the consumer. The warranty does not extend to any consequential damages or cost that may be incurred and is valid for 24 months from date of purchase. The consumer must return the faulty product to the retail store it was purchased from together with proof of purchase.

The warranty is provided by:
Pacific Optics (in Australia)
18 Taree St, Burleigh Heads, QLD 4220
Telephone: (07) 5593 4222
Email: accessories@walkntalk.com.au

Signature Marketing NZ Ltd (in New Zealand)
25a Triton Drive, Rosedale, Auckland 0632
Telephone (NZ): (09) 479 5524
Email (NZ): sales@signaturenz.com

The benefits to the consumer under this warranty are in addition to other rights and remedies of the consumer under Australian laws in relation to the goods to which the warranty relates. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Quick Start Guide

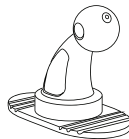

What's included:

1a. Install for Dash Mount usage

Find a suitable location in your vehicle where you can attach the Dash Mount that won't obstruct your visibility of the road. The surface should be non-porous and thoroughly cleaned for the mount to properly adhere.

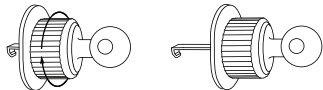

Remove the 3M adhesive backing from the Dash Mount and press firmly to secure it to your vehicle. Wait at least 15 minutes for the adhesive to hold before continuing with the installation.

1b. Install for Air Vent usage

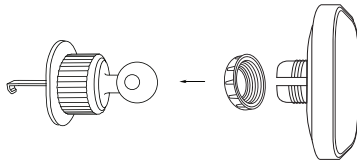

Find a suitable air vent in your vehicle where you can attach the Vent Mount that won't obstruct your visibility of the road.

Rotate the knurled body of the Vent Mount to extend the securing hook. Latch the securing hook over a vane in your chosen air vent. Rotate the knurled knob in the opposite direction to withdraw the securing hook until the Vent Mount is secured in position.

2. Finish the installation

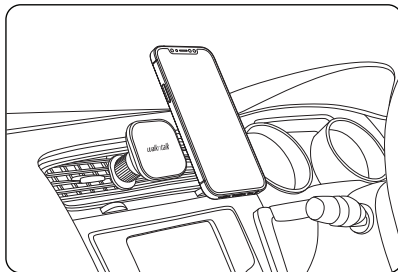

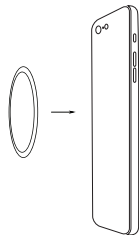

Unscrew the ring from the back of the magnetic phone holder. Push the ball on your chosen (dash or vent) mount through the ring and into the concave connector on the back of the magnetic phone holder. Tighten the ring to the desired position.

Attach the Metal Ring Sticker

Remove the 3M adhesive backing and attach the metal ring sticker to the outside of your phone case - or directly on the back of your phone if you don't use a case. If your phone supports wireless charging, make sure to centre the metal ring sticker on your phone so it doesn't interfere with wireless charging.

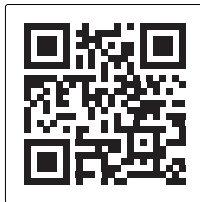

Note for iPhone users: If you're using a MagSafe compatible phone case, then you're good to go and won't need to use the metal ring sticker.

iPhone and MagSafe are trademarks of Apple Inc., registered in the U.S. and other countries and regions.

3. Download user manual

For the most up-to-date assistance, please scan this QR Code to download the full User Manual before using this product.
