

walkntalk User Manual

Bluetooth Receiver

Please read the manual carefully before use.

PRODUCT INSTRUCTION

1. Make sure the battery is fully charged .
2. Insert one end of the 3.5 mm connector plug into the audio output jack on the receiver unit then plug the other end into the 3.5 mm audio input/auxiliary/line-in jack of your car stereo system.
3. Turn on your car stereo system and be sure it is set to the audio input/auxiliary/line-in mode.
4. Press and hold the POWER BUTTON for several seconds until the indicator light flashes blue and red alternately this means the Bluetooth function is activated and ready to connect to your smartphone/Bluetooth audio device.
5. Activate Bluetooth function on your audio device – it should automatically recognize the receiver and connect via the name "WNT BT MR". While connected, the indicator light will flash blue and you are now set to enjoy wireless audio from within a 33ft range of the device.
6. To disconnect and shut off the receiver, press and hold the POWER BUTTON for several seconds until the indicator light is off.

NOTE:

Low receiver power and/or low audio device power may cause poor operation and/or no Bluetooth connection.

CHARGING FOR THIS BLUETOOTH RECEIVER

The battery must be fully charged for the first use.

1. To charge, connect Micro Connector (cable provided) to the Micro input provided on the receiver. Place the USB connector into the charging device (Wall charger, laptop etc.)
2. The indicator light turns red during charging and turns blue while fully charged. Remove the cable from the receiver unit. It will be off automatically in 5 seconds.

NOTE: Low receiver power and/or low audio device power may cause poor operation and/or no Bluetooth connection. Recharge as described above.
