A. Interior Finishes requiring Beeswax Protective Sealer

1. Tadelakt Finish: Shower Use

B. Interior Finishes with optional use of Beeswax Protective Sealer

1. Tadelakt Finish: Non-shower Use
2. Marble Finish
3. Stone Finish

2.0 Beeswax Application Guide

2.1 Required Shower-Use Tadelakt:

[*Earthaus Tadelakt Finish | Application Guide*](#)

2.2 Optional Use over Olive Oil Soap Sealed non-shower Tadelakt, Marble and

Stone Finishes:

1. Mask off all adjacent surfaces

2. Allow the plaster surface to fully dry before Beeswax application.
3. Starting at the bottom of the wall, apply a coat of Beeswax using a high-density foam roller.
4. Make sure to achieve full, even coverage.
5. While the wax remains workable, use a clean lint-free cloth to rub the Beeswax into the surface, removing any streaks and bubbles left by the roller.
6. On large areas, more than one person may be needed to avoid the wax drying before it can be rubbed in.
7. As the Beeswax becomes tacky, buff the surface to desired sheen using a clean lint-free cloth or a mechanical buffer.

3.0 Completion

3.1 Clean up & Disposal

Clean with soap and water. Dispose of excess material with municipal waste.

3.2 Storage

Beeswax Protective Sealer will store for 1 year if kept tightly closed in its original packaging. Keep Beeswax Protective Sealer from Freezing.
