

Description

Inspired by traditional Italian Venetian plaster, the Earthaus Marble Finish is a very fine grained formula that is polished by burnishing for an ultra-smooth and reflective finish. The darker the color, the more color variation and mottling will appear with burnishing. Marble Finish is not suitable for showers.

Substrate Preparation

Marble Finish is formulated to be applied over primed level 4 finished drywall or previously painted wall (primer with added Primer Grit).

Marble Finish | Materials Summary

| | | |
|--------------------------|--------|---------------------------|
| 1. Primer Grit | 3 lb | 1 cup/gallon of primer |
| 2. Stone Plaster | 32 lb | 300 sqft: 1 coat |
| 3. Marble Plaster | 30 lb | 500 sqft: 1 coat |
| 4. Mineral Pigment | varies | 1 pack per bag of plaster |
| 5. Olive Oil Soap Sealer | 1 qt | 700 sqft: 1 coat |

Sample Kit

The Marble Finish Sample Kit comes pre-pigmented in your Earthaus Palette color of choice and includes all of the materials in sample sizes. The Kit will make up to 8 sqft of Marble Finish.
