

Finish Description

Earthaus Stone Finish is a medium textured interior lime plaster that is Olive Oil Soap-sealed with a low sheen. Soap Sealer makes the Stone finish wipeable, provides protection from staining, and gives the finish a silky quality (sheen level will increase with more burnishing). Stone plaster is used as the base coat plaster in the Marble Finish. Stone Finish is not suitable for shower use.

Substrate

Stone Finish is formulated to be applied with primer + Earthaus Primer Grit over level-4 finished drywall or previously painted wall.

Stone Finish | Materials Summary

1. Primer Grit	3 lb	1 cup/gallon of primer
2. Stone Plaster	32 lb	150 sqft: 2 coats
3. Mineral Pigment	varies	1 pigment pack per bag of plaster
4. Olive Oil Soap Sealer	1 qt	700 sqft: 1 coat

Sample Kit

The Stone Finish Sample Kit includes all of the materials in sample sizes and comes pre-pigmented in your Earthaus Palette color of choice. The Kit will make up to 8 sqft of Stone Finish.
