

# Tiger Tank -

## military snow scene

Fig 1.

Fig 2.

Fig 3.

Fig 4.

Fig 5.

Fig 1. Apply Scenic Spray to the trees.

Apply Scenic Snowflakes using the shaker pack from approx 30 cm height.

Fig 2. & 3. Apply Scenic Bond to other areas where snow will collect. Mask any snow-free areas. Apply snow to tilted diorama to give driven snow effect.

Fig 4. Fix Icy Sparkles with Scenic Spray for a frozen snow effect.

Fig 5. Repeat steps 1- 4 for ground cover.

**Tips:** Use a clean sheet of paper creased in the middle to collect any loose flakes then return to the container. Use hair lacquer to further protect the final scene.

Fig 6. Photograph your finished model against a suitable background.

*This scene, depicting a battle scarred German Ausf. E Variant tank somewhere in Eastern Europe, Winter 1944, shows the dramatic use of Scenic Snow.*
