SIZE CHART

A measuring guide for Mesmerize bracelets.

Verify the accuracy of the measurements
with the scales to the right.
They are shown in centimeters

1. Print out this page on an A4 sheet of paper and cut out the 'finger sizer' on the right.
2. Make a slit along the dotted line and insert the pointed end of the sizer through the slot.
3. Wrap the sizer around your wrist, ensuring the measurements are still visible.
4. Move the sizer along until you have reached your wrist's portion where you wear your bracelets.
5. Tighten until the sizer is snugly adjusted to your wrist. Your bracelet size will be displayed along the slot.
