

# Brief Introduction

- ① Multi-function button
- ② Charging case
- ③ Charging Box light
- ④ Android Charging port

**Fuse TWS**

**USER MANUAL**

## Charging the battery

Fully charge the rechargeable case with earpieces inside before using for the first time. Plug the provided USB charging cable into the Micro USB socket at the back of the rechargeable case and the other end (USB-A) into your charging device.

When the rechargeable case is being charged, the blue LED light will flash. The blue LED light will remain on (stop flashing) when fully charged.

To charge the earpieces, place them into the rechargeable case. If any power left in the rechargeable case, they will automatically charge the earpieces. When charging the earpieces in the rechargeable case, the red LED on each earpiece will be on and the red LED at the back of the rechargeable case will be on also. These will turn off when the earpieces are fully charged.

## Pairing the Bluetooth earpieces

In order to use the earpieces, they must be paired with a compatible Bluetooth device before you will be able to receive calls or listen to music. (Pairing" means to establish a connection between Bluetooth devices.)

- Use both earpieces together: Take both earpieces out of the rechargeable case, the earpieces will turn on automatically and ready for pairing, or make sure the earpieces are off then long press until hearing "power on" and wait until the earpiece indicator light flashes blue and red alternately, now the earpieces are under pairing mode.
- Use single earpiece individually: Take any earpiece out of the rechargeable case, the earpiece will turn on automatically and ready for pairing, or make sure the earpiece is off then long press until hearing "power on" and wait until the indicator light flashes blue and red alternately, now the earpiece is under pairing mode.

then select "Fuse TWS" on your devices, you will hear "connected" to indicate successful pairing.

# Receiving calls

Once the earpieces are connected to your Mobile Phone, you are ready to receive the phone calls. You answer a call by pressing either side of your earpieces once and long press 2 seconds to refuse a call.

## Basic use

**Power on** : long press until hearing "Power on" or take the earpieces out of the rechargeable case will be power on automatically
