

## SLOSH PIES FX

*Note: You will require an electric hand-held whisk such as a food whisk / drill attachment to mix this product.*

### **Mixing Instructions:**

1. Empty the powder into your mixing container and add 600ml lukewarm water.

*If mixing in different quantities, combine the desired amount of powder with the relevant amounts of water.*

2. Using an electric hand-held whisk, mix for a few minutes until the foam is at the desired consistency.

*Aim to get as much air into the mixture as possible by moving the whisk up and down.*

3. Once the foam will not aerate further, scoop the top layer of foam onto paper plates.

*If residual powder and water remains in the bottom of your container, repeat steps 2 and 3.*

4. Once the second batch of foam has been scooped onto plates, if lumps of powder remain, add a small amount of water (50ml-100ml) and repeat steps 2 and 3 again until all powder has dissolved.

*We recommend using the foam pies immediately after mixing.*

---

### **Handy Tips & Advice:**

- Aim to get as much air into the Slosh as possible. This will create more body and volume to the mixture.
- If not using all the mixture straightaway, you can re-whisk the foam when required. Use within 24hrs.

---

### **Cleaning of Clothes, Hair & Skin:**

Before washing your clothing, remove any excess product. Foam naturally dilutes in water, so the quickest and easiest way to do this is in the shower while cleaning off. Using our **Easy Mess Removers** clean off is effortless! Just wash as usual!

To prevent staining, wash clothing shortly after use. Do not let the clothing dry before washing as this could cause the clothes to stain.

### **Floor & Surface Protection:**

We recommend you protect your environment by laying tarpaulin, dust sheets or towels. Some surfaces will become slippery during and after use, so anti-slip matting is also advised.

If spillages do occur, remove the excess liquid and carefully rinse with warm soapy water and any, if needed, household stain remover.

---

### **Disposal:**

The Slosh Pies are naturally biodegradable and environmentally friendly. Disposal is quick and easy. Dilute with plenty of water and pour down the drain/toilet.

---

### **Safety:**

Safety checks before use is advised to ensure all hard objects, exposed electrical points and any potential hazards have been secured. Always supervise children. If irritation occurs, rinse with warm water.
