

FJORD FITNESS ONYX TREADMILL

Pictures and videos cannot show how well built this treadmill is. Fjord set out on a mission to build a treadmill that rivals nothing that has ever been built. From the frame, rollers, motor, running surface and electronics no expense was spared, making this the last treadmill you ever purchase. Everything has been tuned and refined above and beyond a normal treadmill. This treadmill's performance better rivals that of an Italian luxury vehicle than a treadmill.
