

THE SOUND OF SUCCESS

Nautilus Platforms are the best in class, built environmentally conscious with solid construction for extreme durability and high-performance training. Nautilus Platforms protect floors, reduce the force required to stop dropped weight plates, dampen sound, and create a stable lifting station for free weight zones. The durability of the bamboo surface handles the toughest workouts and maintains outstanding longevity. Bamboo is a renewable resource—a fast-growing crop that does not need replanting. Nautilus Platforms are a smart investment that return long-lasting benefits.

OPTIONAL BUMPER PLATE FLOOR STORAGE
9-HDCS1

DIMENSIONS	11 in x 28 in x 9 in (28 cm x 71 cm x 23 cm)
UNIT WEIGHT	30 lbs (13.6 kg)

OPTIONAL BAND PEG & STORAGE*
95-0760

*Kits available to add variable resistance

DIMENSIONS	14 in x 6 in x 6 in (36 cm x 15 cm x 15 cm)
UNIT WEIGHT	10 lbs (4.5 kg)

PULL UP BRIDGE*
9-HDPB1-26

*Available for connecting multiple racks together

DIMENSIONS	73 in x 10 in x 9 in (185 cm x 25 cm x 29 cm)
UNIT WEIGHT	58 lbs (26 kg)

OPTIONAL VERTICAL OLYMPIC BAR STORAGE*
731-9299-KT

*Kits are available to protect walls during bar storage.
