# Slap Bracelet Tutorial

# Materials Required:

## Applique version:

- (2) 2" x 10" pieces of fabric (applique version)
- Medium weight tear away or heavy weight water soluble stabilizer
- 1.25"x8.5" slap bracelet insert

## Vinyl version:

- (1) 2" x 10" piece of vinyl
- (1) 2" x 10" piece of oly fun (for back)
- Medium weight tear away or heavy weight water soluble stabilizer
- 1.25"x8.8" slap bracelet insert

## Materials Key

Stabilizer

Fabric Back

Fabric Front

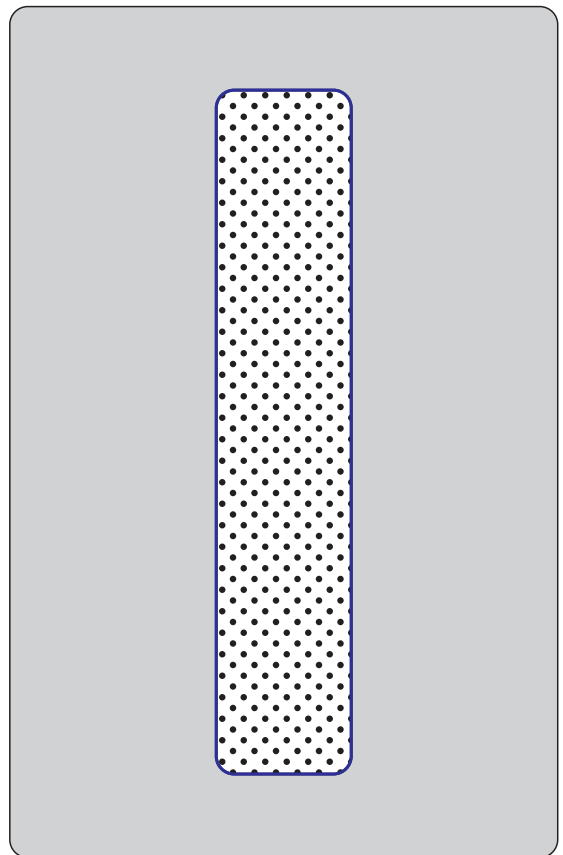

### Please Note:

When using the vinyl version, if your vinyl or backing is too thick, the bracelet will not "slap" closed. Err on the side of using thinner materials. Glitter canvas type vinyl and Oly-fun or thin felt for the backing. Using vinyl on the backing is not recommended.

1) Run the first step of the design directly on your stabilizer.

2) Take one piece of fabric and place it FACE down (so the wrong side is up) on top of your stabilizer. Run the next step to tack down this piece. This will be your backing.

3) Take the second piece of fabric and place this directly on top of the first, RIGHT side up. Run the next step to tack down this fabric (note this step will leave an opening at the top).

4) Take your slap bracelet blank and slide it inside the top opening. Be sure to push it down to the bottom but don't jam it down there. You want it nice and centered.

5) Run the next step to stitch closed the opening and your bracelet is finished.

### *Applique version:*

6) Trim away excess fabrics, getting as close to the stitching as possible. Return hoop to machine and run the final step of the design.

Please share your makes in our [Facebook Group](#) or use the hashtag #NosyPepperEmbroidery on Instagram so we can all see your makes!
