4. This light can be used for outdoor installation.

### INSTRUCTIONS

1. Adjustable color temperature.
2. This product has dimming function
3. 2 dimming functions are available for this LED light
  - 1- Constant current can be achieved by 0-10V DC dimming.
  - 2- Variation of resistance unit dimming (Please choose the appropriate dimming way according to your needs. you can also choose not to use this function).
4. Choose the wire connection ways, dimming ways and installation ways according to your needs.

### WIRING DIAGRAM

### 1/2 ADJUSTABLE FITTER MOUNTING

Step 1: Take light out of package (Figure 1)

Step 2: Finish wire connection according to the right mode of connection (pay attention to positive wire, negative wire and ground wire), then put wires into light pole (Figure 2)

Step 3: Loosen screws, adjust fixture angle as per actual demands and tighten screws after.

Tips: Angle of the fixture is adjustable (Figure 3) Pass the bracket through mounting surface, fix with screws, then connect the wires as per proper wiring requirements (Figure 4).

Step 4: When mounting on wall or ceiling with canopy, need to caulk to seal the mounting surface. (Figure 5).
