

Danger – Risk of shock – Disconnect power before installation. The fixture should be installed following the NEC or your local electrical code. The fixture should be installed by a qualified electrician.

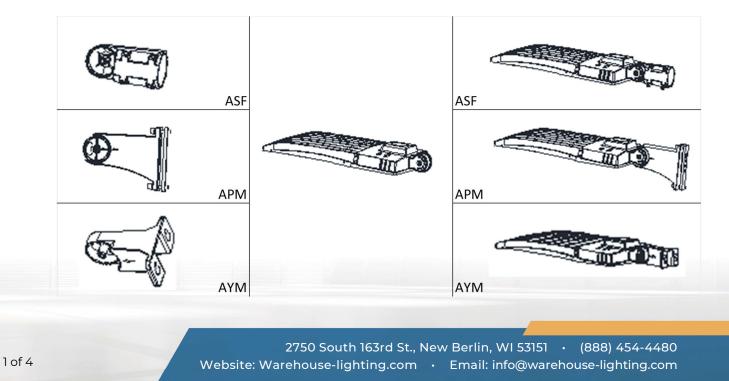

Instructions:

- 1. This product has 1-10v standard dimming function.
- 2. Choose the wire connection, dimming and installation method to your needs and the led fixture purchased.

Wiring Diagram:

There are 3 different style mounts for this fixture.

Installation Instructions based on the mount selected:

ADJUSTABLE SLIPFITTER MOUNT (ASF)

Step 1: Remove the bracket mounting screws on the fixture and run the wires through the bracket. (Figure 1) Step 2: Install the bracket on the fixture. (Figure 2)

Figure 1

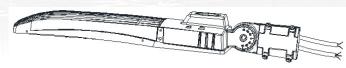

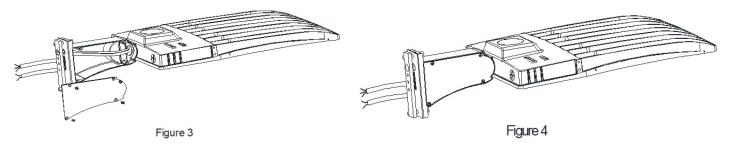

Figure 2

ADJUSTABLE POLE MOUNT (APM)

Step 1: Remove the bracket mounting screws on the fixture, open the side lid of bracket and run the wires through the bracket. (Figure 3) Step 2: Install the bracket on the fixture, then cover the side lid and tighten it. (Figure 4)

ADJUSTABLE YOKE MOUNT (AYM)

Step 1: Remove the mount screws on the fixture and run the wires through the bracket.(Figure 5) Step 2: Install the bracket on the fixture.(Figure 6)

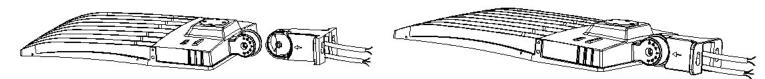

Figure 5

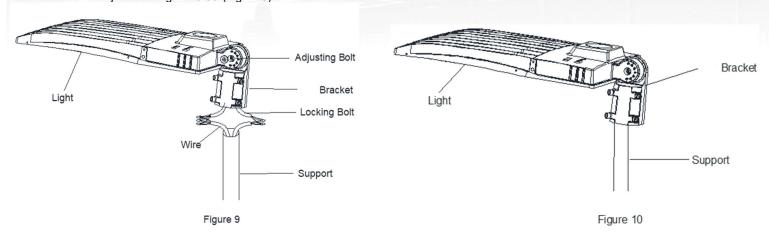

Installation of Fixture to Pole

ADJUSTABLE SLIPFITTER MOUNT (ASF)

- Step 1: Loosen the four bolts on ASF bracket, connect the wires correctly, and pull the wires into the poles.(Figure 9) Step 2: Place the bracket into the pole and lock the four bolts.(Figure 10)
- Notice: Adjustable angle is 0-90°(Figure 9)

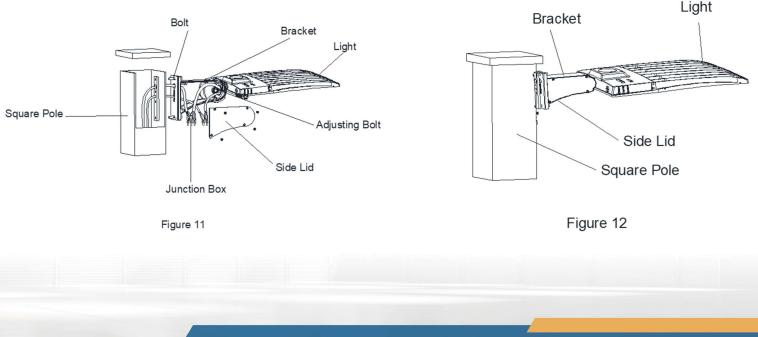

ADJUSTABLE POLE MOUNTING (APM)

Step 1: Fix APM bracket to square pole with bolt, open the side lid of APM bracket, pull the wire into junction box, and connect the wire correctly. (Figure 11)

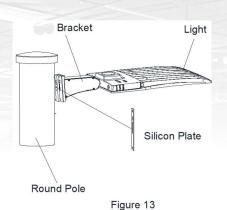

Step 2: Put the connected wire into the junction box, then cover the junction box.(Figure 12)

Notice: Adjustable angle is 0-35° (Figure 11). Same as round pole installation, please remember to remove the silicon plate when install the fixture in round pole (Figure 13)
